

ANNUAL MONITORING REPORT 2023-2024

December 2024

www.reading.gov.uk

Reading
Borough Council

Working better with you

Executive Summary

- i. The Annual Monitoring Report reports on key information relating to planning policy issues in Reading on an annual basis, both in terms of the progress of new policy documents, and the effects of the policies that already exist. This Annual Monitoring Report covers the period from 1st April 2023 to 31st March 2024.
- ii. The main outcomes for the monitoring year are outlined below.
- iii. **Policy Progress:** Progress has mainly been made on the Partial Update of the Local Plan, with a Consultation on Scope and Content under Regulation 18 taking place during the monitoring year.
- iv. **Duty to Co-operate:** There has been an increase in duty to co-operate measures associated with the preparation of the Local Plan Partial Update.
- v. **Contributions to Infrastructure:** The Council has collected £4.193 million in contributions towards infrastructure, with the majority of that being through Section 106 agreements. Spend on infrastructure in 2023-24 was £11.687 million, with the majority of spend being of Community Infrastructure Levy funds. The Infrastructure Funding Statement provides more information.
- vi. **Economic development:** Other than the granting of permission for one major mixed use town centre development, changes in economic development floorspace have been limited this year, and have generally been in accordance with relevant policies.
- vii. **Housing:** Overall delivery of housing has been very strong this year with 1,021 new dwellings delivered. There is a 6.11 years' supply of housing land at the end of the year. Affordable housing delivery has also been particularly strong in 2023-24. However, there continue to be challenges in delivering the size of housing that Reading needs, particularly larger family dwellings.

1. Introduction

- 1.1 The Annual Monitoring Report reports on key information relating to planning policy issues in Reading on an annual basis. The purposes are to monitor the progress of the Local Development Scheme (LDS) including the positions of planning policy documents; to review the performance of the Local Plan in relation to key policy targets (indicators) set out in the documents; and to determine the extent to which objectives, targets and programmes are being met to inform and guide the development of future plans and policies.
- 1.2 This Annual Monitoring Report covers the period from 1st April 2023 to 31st March 2024. It provides a concise summary of key statistical information which considers the impact of the Local Plan policies.

Context to the AMR 2023/24

- 1.3 The production of a single Annual Monitoring Report containing a range of planning monitoring information is no longer a statutory requirement. However, there remains a requirement for continuous reporting of important monitoring information, and therefore Reading Borough Council has continued to produce a monitoring report on an annual basis, as it has proven a helpful format for reporting information.

Approach and Structure of the Report

- 1.4 This report looks first at progress on the process of plan making, and then moves on to monitor the effects of policies. By and large, the report focuses on data collected by the Council rather than third party data which is available in public elsewhere. The report does identify and provide links to online sources where data about Reading has been collected.
- 1.5 The report is structured broadly into two key elements, which comprise monitoring policy progress and monitoring policy performance. The main sections of this report include:
- Introductory comments;
 - A description of the current planning policy framework for Reading and, progress made with regard to the Local Development Scheme (LDS) since April 2023 including the status of the Local Plan and Supplementary Planning Documents (SPDs). This includes actions taken under the duty to co-operate;
 - Monitoring indicators relevant to the adopted Local Plan documents.
- 1.6 Section 2 of the Reading Borough AMR for the monitoring year 2023-24 reviews the progress of the Local Development Scheme (LDS) with respect to the outlined milestones and the progress on the implementation of policies contained in adopted Local Plan documents. Section 3 deals with the duty to co-operate, reporting on which is a statutory requirement. Section 4 refers to key monitoring information for the new Local Plan.

- 1.7 Section 5 onwards of the AMR 2023-24 considers the status of key policies and related targets within the adopted Reading Borough Local Plan and monitors how those policies are being implemented.
- 1.8 The requirements under the Community Infrastructure Levy Regulations 2010 (as amended) to monitor measures related to CIL are now fulfilled in a separate Infrastructure Funding Statement.
- 1.9 The housing trajectory for 2023-24 and headline indicators relating to housing monitoring are included in section 8 of the AMR. Information included relates to housing delivery, development on previously developed land, affordable housing and housing mix. The recent developments in business, retail and leisure development are also outlined through appropriate indicators in sections 7 and 9.
- 1.10 The data sources for compiling this report include commitments monitoring information for Residential and Non-Residential published by the Council in 2024, and information from sources such as the Office of National Statistics (ONS) and Thames Valley Environmental Records Centre.

Sources of background information and data on Reading

- 1.11 Major sources of third party data and comparative information about Reading also include the Office of National Statistics' NOMIS service, which provides labour market statistics by local authority area. Data for Reading can be found on the [NOMIS website](#).

2. Monitoring Policy Progress

- 2.1 This Section evaluates the progress of Local Development Documents (LDDs) evolving under the Local Development Scheme (LDS) and examines the extent to which those documents have progressed in relation to the targets set out in the LDS.
- 2.2 The most up-to-date LDS at the start of the monitoring year was the version produced in March 2023, the main focus of which was setting out the scope and process for the Local Plan Partial Update. This is therefore the version against which progress is monitored in this section.
- 2.3 Table 2.1 sets out the documents that were already in place at the start of the monitoring year.

Table 2.1: Local planning documents already adopted at 1st April 2023

Document title	Adoption date
Reading Borough Local Plan	November 2019
Central and Eastern Berkshire Joint Minerals and Waste Plan	January 2023
Statement of Community Involvement	March 2014
Community Infrastructure Levy Charging Schedule	January 2015
Affordable Housing SPD	March 2021
Battle Hospital Planning Brief	April 2005
Caversham Lock Area Development Principles	March 2006
Dee Park Planning Brief	December 2008
Design Guide to House Extensions SPD	March 2021
Design Guide to Shopfronts SPD	January 2022
Employment, Skills and Training SPD	April 2013
Kenavon Drive Urban Design Concept Statement	July 2004
Meadway Centre Planning Brief	November 2013
Minster Quarter Area Development Framework	December 2018
Palmer Park Development Framework	April 2020
Parking Standards and Design SPD	October 2011
Reading Prison Framework	March 2015
Reading Station Area Framework	December 2010
Residential Conversions SPD	March 2023
Revised Planning Obligations under Section 106 SPD	November 2013
South West Reading Planning Brief	April 2000
Station Hill South Planning and Urban Design Brief	March 2007
Sustainable Design and Construction SPD	December 2019

- 2.4 Table 2.2 sets out progress against the milestones that our March 2023 Local Development Scheme expected to be reached between 1 April 2023 and 31 March 2024 and indicates whether these milestones were met or were missed.

Table 2.2: Progress against milestones in the LDS, 2023-24

Document	Stage	Planned milestones to end 2023-24	Actual milestones	Met/not met
Local Plan Partial Update	Regulation 18 consultation	November/ December 2023 – January 2024	November 2023 – January 2024	Met
Biodiversity and Natural Environment SPD	Draft consultation	July-September 2023	Not yet reached	Not met
Biodiversity and Natural Environment SPD	Adoption	November 2023	Not yet reached	Not met
Sustainable Transport and Parking SPD	Draft consultation	July-September 2023	Not yet reached	Not met
Sustainable Transport and Parking SPD	Adoption	November 2023	Not yet reached	Not met
Town Centre Public Realm Strategy SPD	Draft consultation	September – October 2023	Not yet reached	Not met
Town Centre Public Realm Strategy SPD	Adoption	March 2024	Not yet reached	Not met

- 2.5 **Local Plan:** The Reading Borough Local Plan was adopted in November 2019. This means that a statutory five-year review of the plan needs to have taken place by November 2024. A review was carried out and published in March 2023. This came to the conclusion that a Partial Update of the Local Plan was required that would encompass 45 out of the 90 policies in the plan. This was endorsed by the Council's Strategic Environment, Planning and Transport Committee in March 2023. The Committee also agreed a new version of the Local Development Scheme (LDS) to outline the timescales for carrying out the Partial Update.
- 2.6 Progress on the Local Plan Partial Update within 2023-24 has been in line with the milestones set out in the LDS, with a consultation under Regulation 18 undertaken between November 2023 and January 2024.
- 2.7 **Supplementary Planning Documents:** The LDS expected progress on three supplementary planning documents (SPDs) during 2023-24, with those being the Biodiversity and Natural Environment SPD, a Sustainable Transport and Parking SPD and a Town Centre Public Realm Strategy SPD. No progress has been made on these during the monitoring year however. In the case of the Biodiversity and Natural Environment SPD, progress has been affected by the need to wait for detailed regulations and guidance on Biodiversity Net Gain, which was only produced early in 2024. However, more generally, there has been limited capacity to progress these documents due to work on the Local Plan Partial Update taking precedence.
- 2.8 **Future policy production:** The focus for local policy in 2023-24 will continue to be the Partial Update of the Local Plan. The November 2023 update of the LDS timetabled consultation on Regulation 19 for August and September 2024, but this was amended to November 2024 in further June 2024 update to the LDS, a milestone which has been met. Submission to the Secretary of State is also timetabled for before the end of the monitoring year, at the end of February 2025.

- 2.9 Proposals for planning reform have been set out in the Levelling-Up and Regeneration Act 2023. These have implications for future policy production, including the replacement of the Local Development Scheme and Supplementary Planning Documents (SPDs) with a Local Plan Timetable and Supplementary Plans respectively, a requirement for a design code as well as a statutory 30-month plan preparation period. The Council will continue to keep any changes under review in identifying timescales for future policy production, but it is not considered that this will affect the timetable for the Local Plan Partial Update.
- 2.10 **Conclusion:** Progress on local policy has been focused on the production of a Partial Update of the Local Plan, which has made good progress. However, progress on planned SPDs has not been made in line with published timescales.

3. Duty to co-operate

- 3.1 The Council is required to report on measures that have been undertaken to comply with the Duty to Co-operate, which is set out in the Localism Act 2011. As the process of updating the Local Plan began in 2023, the main focus has been on duty to co-operate measures to inform this update. However, work has also been undertaken to inform plans of other authorities during 2023-24.
- 3.2 The Council has prepared a Duty to Co-operate Scoping Strategy (December 2015), which identifies those issues to address within the local plan that are likely to be strategic matters and which therefore fall under the duty to co-operate, and identifies the specified bodies with which co-operation may be necessary. It therefore provides context for carrying out the duty to co-operate. It is available to view on the Council's website¹.

Local Plan Partial Update

- 3.3 As set out in the previous section, work has begun in earnest during the monitoring year on progressing the Local Plan Partial Update, with Regulation 18 consultation having been reached in November 2023. This has meant needing to carry out a number of duty to co-operate measures across the year, which includes:
- Dedicated duty to co-operate meetings with neighbouring authorities;
 - Engagement on Reading's Housing Needs Assessment;
 - Significant joint working with healthcare providers on identifying healthcare infrastructure needs to support the Local Plan.

Other authorities' plan making

- 3.4 The Council has continued to co-operate with neighbouring authorities on their own plan making. In 2023-24, there has been engagement in particular with West Berkshire District Council, Wokingham Borough Council and South Oxfordshire District Council/Vale of White Horse District Council, all of whom have been advancing their own local plans during the monitoring year. In particular, there was a duty to co-operate request from Wokingham relating to gypsy and traveller needs to which the Council responded.

Other measures

- 3.5 The table below lists the main actions relevant to the duty to co-operate that have been undertaken between 1 April 2023 and 31 March 2024.

Table 3.1: Summary of duty to co-operate measures 2023-24

Date	Description
19 th April 2023	Attendance at workshop on specialist housing need in South Oxfordshire and Vale of White Horse

¹ [RBC Duty to Cooperate Scoping Strategy 1215.pdf \(reading.gov.uk\)](https://www.reading.gov.uk/reading-borough-council-annual-monitoring-report-2023-24-12-2024/1215)

Date	Description
13 th June 2023	Meeting with Buckinghamshire, Oxfordshire and Berkshire West Integrated Care Board regarding primary care needs in Reading
12 th September 2023	Meeting with Buckinghamshire, Oxfordshire and Berkshire West Integrated Care Board regarding primary care needs in Reading
13 th September 2023	Meeting with RBH NHS Foundation Trust regarding the future of Royal Berkshire Hospital and primary care
22 nd September 2023	Duty to co-operate meeting with Wokingham Borough Council
6 th October 2023	Duty to co-operate meeting with South Oxfordshire District Council
18 th October 2023	Duty to co-operate meeting with West Berkshire District Council
31 st October 2023	Duty to co-operate meeting with Bracknell Forest Borough Council
1 st November 2023	Duty to co-operate meeting with Wokingham Borough Council
2 nd November 2023	Duty to co-operate meeting with Oxfordshire County Council
27 th November 2023	Consultation commences on the Local Plan Partial Update: Consultation on Scope and Content
29 th November 2023	Duty to co-operate request received from Wokingham Borough Council with regard to unmet needs for gypsy and traveller accommodation
30 th November 2023	RBC responds to duty to co-operate request from Wokingham Borough Council with regard to unmet needs for gypsy and traveller accommodation
30 th November 2023	Duty to co-operate meeting with Basingstoke and Deane Borough Council
22 nd January 2024	Meeting with RBH NHS Foundation Trust regarding the future of Royal Berkshire Hospital
31 st January 2024	Consultation closes on the Local Plan Partial Update: Consultation on Scope and Content
21 st February 2024	RBC responds to South Oxfordshire/Vale of White Horse Local Plan Regulation 18 consultation
11 th March 2024	Meeting with RBH NHS Foundation Trust to discuss transport assessment work for the Royal Berkshire Hospital
19 th March 2024	Duty to co-operate workshop on Housing Needs Assessment, presenting methodology and draft headline results, attended by Bracknell Forest Borough Council, Buckinghamshire Council, Hart District Council, Royal Borough of Windsor and Maidenhead, Slough Borough Council, South Oxfordshire District Council, Vale of White Horse District Council, Wokingham Borough Council

4. Local Plan Monitoring

- 4.1 The Reading Borough Local Plan was adopted on 4th November 2019. Section 11 of the Local Plan is the monitoring section of the plan, and this includes a number of indicators with associated targets which should be used to assess the success of the policies.
- 4.2 The baseline figures for each indicator before the adoption of the plan were set out in 2018-19, with 2019-20 representing the first year for which these indicators have been reported, and this AMR reports on the fourth monitoring year in which the policies are being applied. Appendix IV includes the table of the Local Plan monitoring indicators, and sets out the most recent information, which usually covers the 2023-24 year. Where relevant, it also includes any cumulative figures for the Local Plan period so far, as the base date for the plan is 1st April 2013. Appendix IV shows whether Local Plan monitoring targets have been met in 2023-24. There may be particular reasons why targets are met or not met in a given year. In particular, any targets that are measured in terms of completed development will take some years to reflect changes made in the Local Plan due to the length of the development process. Therefore, not meeting plan targets does not automatically amount to a plan failure, but it represents a useful measure at this point, particularly for comparison with future years. A Local Plan Review, undertaken in March 2023 has particularly taken account of the results of monitoring indicators over this period.
- 4.3 Future versions of the AMR will continue to include this table and update it with the most recent information so that there is an ongoing, easy-to-use guide to the success of the policies.

5. Sustainable development

- 5.1 The key policies relating to sustainable development are as follows:
- CC2: Sustainable Design and Construction
 - CC3: Adaptation to Climate Change
 - CC4: Decentralised Energy
 - H5: Housing Standards
- 5.2 The Local Plan places sustainable development at the heart of its agenda, in particular sustainable design and construction measures in policies CC2 and H5, with the latter seeking very ambitious standards in new housing. It is important that sustainable design and construction techniques are incorporated within development schemes in order to minimise their impact upon the environment. Policy CC3 focusses on the incorporation of appropriate measures to adapt to climate change, and Policy CC4 on securing energy for a development from a decentralised energy source.
- 5.3 Reading Borough Council declared a climate emergency in February 2019, and a Reading Climate Emergency Strategy was published during 2020. There is therefore a strong emphasis on sustainability across all of the Council's functions.

Indicator 1: Sustainability requirements attached to major planning permissions

Table 5.1: Number of major planning permissions with sustainability requirements attached as a planning condition, 2023-24

Status	Number of permissions
Major planning applications permitted	22
Number with condition requiring sustainability standard	17
Number without condition requiring sustainability standard	5

- 5.4 Of the 22 major planning applications that were permitted during the monitoring year, 17 had conditions relating to sustainability.
- 5.5 Of the permissions without a sustainability condition, two related to temporary uses of land where there was no requirement for a sustainability standard. Another was for an a reserved matters consent, with the outline consent being subject to the sustainability requirements. The remaining two without sustainability conditions were variations of existing planning permissions. One of those permissions was a very old permission that had already been built out, and long predated any sustainability requirements. In the other case, the sustainability standards were all dealt with in a Section 106 agreement rather than as a condition.

Indicator 2: Major new-build residential developments permitted at zero carbon homes standards

Table 5.2: Major new-build residential developments permitted at zero carbon homes standards in 2023-24

Status	Number of permissions	Number of homes
Major new-build residential permitted	11	1,314
Number at zero carbon homes standard	11	1,314
Percentage at zero carbon homes standard	100%	100%

- 5.6 All major new build residential was permitted in accordance with the requirement for zero carbon homes.

Indicator 3: Major new-build non-residential developments permitted at BREEAM Excellent standards

Table 5.3: Major new-build non-residential developments permitted at BREEAM Excellent standards in 2023-24

Status	Number of permissions	Amount of floorspace (sq m, gross)
Major new-build non-residential permitted	4	47,728
Number at BREEAM Excellent standard	4	47,728
Percentage at BREEAM Excellent standard	100%	100%

- 5.7 All major new build non-residential floorspace was permitted in accordance with the requirement for BREEAM Excellent.

6. Infrastructure contributions

- 6.1 The key policies relating to infrastructure contributions are as follows:
- CC9: Securing Infrastructure
- 6.2 The main strategic purpose of policies is as follows:
- Provide infrastructure to support development in the area
- 6.3 The Council has long been successful in securing developer contributions through S106 planning obligations. On 1 April 2015, the Council introduced the Community Infrastructure Levy, which replaces Section 106 for tariff-style contributions to strategic infrastructure. Section 106 continues to apply for affordable housing, employment and skills measures, and more site-specific infrastructure. Policy CC9 of the Local Plan sets the infrastructure priorities for new development.
- 6.4 The Council is required to produce an Infrastructure Funding Statement (IFS) annually by 31st December, in line with amended CIL Regulations that came into force in September 2019. The IFS reports on collection, allocation and spend of money during the financial year from both CIL and Section 106 agreements. It also sets out priorities for future spend. The Council's fourth IFS was published in December 2024, and there is therefore no longer a need for the AMR to report on these matters in detail. However, for ease of reference, the summary information from the IFS is set out below.
- 6.5 In terms of the Community Infrastructure Levy:
- The total CIL collected by Reading Borough Council in 2023-2024 was £1.740 million
 - The total CIL allocated in 2023-2024 was £6.790 million
 - The total CIL spent in 2023-2024 was £7.555 million
 - CIL liability notices were issued in 2023-2024 for £13.846 million
- 6.6 In terms of Section 106:
- The total of financial contributions under Section 106 collected by Reading Borough Council in 2023-2024 was £2.453 million
 - The total of financial contributions under Section 106 allocated in 2023-2024 was £0.892 million
 - The total of financial contributions under Section 106 spent in 2023-2024 was £4.132 million
 - Financial contributions were agreed in Section 106 agreements signed in 2023-2024 was £1.645 million.

7. Economic development and employment

7.1 The key policies relating to economic development and employment are as follows:

- EM1: Provision of Employment
- EM2: Location of New Employment Development
- EM3: Loss of Employment Land
- EM4: Maintaining a Variety of Premises

7.2 The main strategic purpose of policies is as follows:

- Direct major office development to central Reading and the A33 corridor;
- Direct major employment development other than offices to the A33 corridor and Core Employment Areas;
- Protect employment land within Core Employment Areas; and
- Maintain a range of floorspace, including small units, and B8 floorspace in the South of Basingstoke Road.

Indicator 4: Employment floorspace permitted by type during 2023-24 (net)

Table 7.1: Employment floorspace (net) newly permitted during 2023-24 by type

Location	Office	Industrial and warehouse	Total
Central Reading	19,525	-2,055	17,470
A33 Corridor	334	-1,003	-669
Core Employment Areas (outside A33 Corridor)	699	-912	-213
Other locations	184	-401	-217
Total in Reading	20,742	-4,371	16,371

7.3 This indicator monitors new employment permissions during 2023-24. It shows that new permissions have involved a significant gain of offices this year, due to a single town centre mixed use permission adjacent to the station, and a small net loss in industrial and warehouse space.

7.4 This indicator has previously been reported in terms of use classes. However, with changes to the use classes order in 2020 that meant that office was within a broader commercial use class, it has instead been decided to report on the broader types of floorspace as set out in the Local Plan.

7.5 Note that Indicator 4 is not directly comparable with 6 and 7. This is because, in order to calculate a percentage, gross figures have to be used to exclude losses for 6 and 7, whereas net figures were used for 4.

Indicator 5: Employment floorspace completed by type during 2023-24 (net)

Table 7.2: Employment floorspace (net) completed during 2023-24 by type

Location	Office	Industrial and warehouse	Total
Central Reading	-1,300	-1,950	-3,250
A33 Corridor	-808	0	-808
Core Employment Areas (outside A33 Corridor)	0	-943	-943
Other locations	-481	-985	-1,466
Total in Reading	-2,589	-3,878	-6,467

- 7.6 This indicator monitors completions involving employment floorspace during 2023-24. In overall terms, it shows a net loss of employment. This includes both loss of offices and loss of industrial and warehousing.
- 7.7 The long-term trend has been for a reduction in office and general industrial floorspace, so that 2016/17 saw the lowest level in over 25 years, followed by a slight increase. The reduction this year is therefore in line with longer term trends. The level of B8 space has increased over recent years, and the 2018-19 figure was the highest level in our records (which go back three decades), but recent years have seen a levelling off of this trend and this has continued in 2023-24.
- 7.8 Note that Indicator 5 is not directly comparable with 6 and 7. This is because, in order to calculate a percentage, gross figures have to be used to exclude losses for 6 and 7, whereas net figures were used for 5.

Indicator 6: Proportion of office floorspace which is within the centre or A33 corridor

Table 7.3: Proportion of office floorspace newly permitted or completed in 2023-24 which is within Central Reading or the A33 Corridor

Location	Office f/s (gross) permitted 2023-24	% of gross office f/s permitted 2023-24	Office f/s (gross) completed 2023-24	% of gross office f/s completed 2023-24
Central Reading	24,790	97%	0	0%
A33 Corridor	334	N/A	0	0%
Total in Central Reading and A33 Corridor	25,124	99%	0	0%
Reading Total	25,427	N/A	303	N/A

- 7.9 Policy EM1 of the Local Plan directs major office development to central Reading and the A33 corridor. There has been one large office permission in 2023-24, which was in the town centre, with remaining permissions being very small scale, meaning that

virtually all new permissions were in line with policy. Only one very small office permission was completed, which was a change of use outside the identified locations.

Indicator 7: Proportion of industrial and warehouse floorspace which is within the A33 corridor or Core Employment Areas

Table 7.4: Proportion of industrial and warehouse floorspace newly permitted or completed in 2023-24 which is within the A33 Corridor or Core Employment Areas

Location	Industrial/warehouse f/s (gross) permitted 2023-24	% of gross industrial/warehouse f/s permitted 2023-24	Industrial/warehouse (gross) completed 2023-24	% of gross industrial/warehouse f/s completed 2023-24
A33 Corridor	229	13%	0	0%
Core Employment Areas (outside A33 Corridor)	1,603	87%	859	100%
Total in A33 Corridor and CEAs	1,832	100%	859	100%
Reading Total	1,832	N/A	859	N/A

- 7.10 Policy EM1 of the Local Plan directs major industrial and warehouse development to the A33 corridor and Core Employment Areas. All development completed and permitted was in these prioritised locations.

Indicator 8: Net change in small business units (industrial and warehouse units of less than 150 sq m) completed and permitted

Table 7.5: Net change in small business units as a result of new permissions and completions

Status	Net change in number of units	Net change in floorspace (sq m)
Newly permitted 2023-24	-2	-224
Completed 2023-24	-4	-461

- 7.11 There have been two permissions that would result in a loss of small business units, which are ageing units within residential locations rather than in employment areas. Loss of four units has occurred this year. Three of these were on a single site and were demolished ahead of a redevelopment for modern employment use. The other was a vehicle workshop in a residential area demolished for a housing development.

Indicator 9: Net change in storage and distribution floorspace in the South of Basingstoke Road

Table 7.6: Net change in B8 storage and distribution floorspace in the South of Basingstoke Road 2023-24

Status	Net change (sq m)
Newly permitted 2023-24	0
Completed 2023-24	0

- 7.12 Policy EM4 of the Local Plan states that proposals should maintain the overall level of B8 storage and distribution floorspace in the South of Basingstoke Road Core Employment Area. No changes have been permitted or completed in storage and distribution floorspace in the south of Basingstoke Road.

Conclusion: Are policies fulfilling their purpose?

- 7.13 In terms of the strategic purpose of policies, monitoring this year indicates the following conclusions.
- **Direct major office development to central Reading and the A33 corridor**
Virtually all office development newly permitted has been in central Reading and the A33 corridor. No floorspace has been completed.
 - **Direct major employment development other than offices to the A33 corridor and Core Employment Areas**
All industrial and warehouse development newly permitted or completed has been in the A33 corridor or Core Employment Areas.
 - **Protect employment land within Core Employment Areas**
There has been a net loss of employment floorspace within the Core Employment Areas, due to two demolitions in the Portman Road area ahead of employment redevelopment.
 - **Maintain a range of floorspace, including small units, and B8 floorspace in the South of Basingstoke Road**
There has been a net loss of four small business units. There has been no change in B8 floorspace in the South of Basingstoke Road.

8. Housing

8.1 The key policies relating to housing are as follows:

- H1: Provision of Housing
- H2: Density and Mix
- H3: Affordable Housing
- H4: Build to Rent Schemes
- H5: Standards for New Housing
- H6: Accommodation for Vulnerable People
- H7: Protecting the Existing Housing Stock
- H8: Residential Conversions
- H9: House Extensions and Ancillary Accommodation
- H10: Private and Communal Outdoor Space
- H11: Development of Private Residential Gardens
- H12: Student Accommodation
- H13: Provision for Gypsies and Travellers
- H14: Suburban Renewal and Regeneration

8.2 The main strategic purpose of policies is as follows:

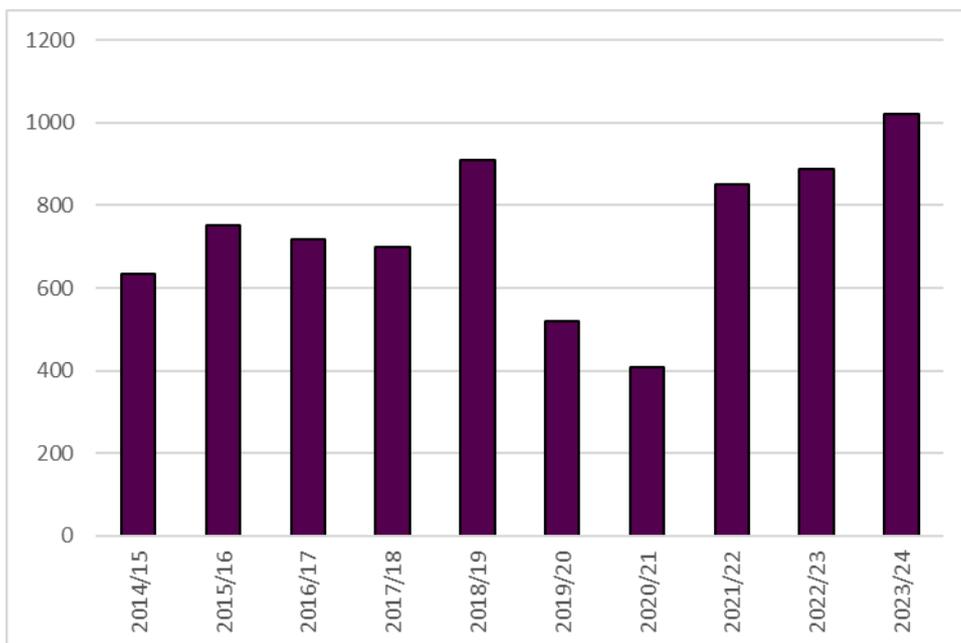

- Ensure a good supply of housing of 689 dwellings per annum 2013-2036;
- Ensure a good supply of affordable housing;
- Ensure a mix of housing in Reading including provision of family housing;
- Ensure high standards for new homes; and
- Set out policy for sites for student accommodation and for gypsies and travellers.

Indicator 10: New housing delivered

Table 8.1: Number of homes completed

Monitoring year	Net additional dwellings completed
2014/15	635
2015/16	751
2016/17	717
2017/18	700
2018/19	910
2019/20	521
2020/21	408
2021/22	850
2022/23	888
2023/24	1,021

Figure 8.1: Net additional dwellings completed 2014-2024

8.3 The number of completed dwellings this year was 1,021. This represents a significant increase over last year, and the second highest total in at least the last 30 years. It significantly exceeds both the annual housing provision figure in policy H1 of 689 dwellings per year and the objectively assessed housing need figure of 699 dwellings per year.

Indicator 11: Five year housing land supply including C3 dwellings only

Table 8.2: Five year housing land supply including C3 dwellings only

Element of supply calculation	Dwellings
Total requirement based on Local Plan 2013-2036 (policy H1)	15,847
Net Completions 2013-2023	6,741
Net Completions 2023-2024	1,021
Residual requirement 2024-2036	8,085
Annual requirement for remaining 12 years, i.e. 8,085/12	674
Annual requirement for remaining 12 years with 5% buffer (NPPF para 74)	707
Total requirement for 5 years 2024/25-2028/29, i.e. 707 x 5	3,537
Hard commitments (strategic sites, i.e. 10 dwellings+) to be delivered 2024-2029	3,589
Soft commitments (strategic sites) subject to S106 to be delivered 2024-2029	225
Local Plan allocations to be delivered 2024-2029	0
Allowance for small site windfalls at 90 per annum	450
Total site-specific supply for 5 years 2024/25-2028/29	4,264

- 8.4 This version of the 5-year housing land supply is measured against the dwelling provision figure in policy H1 of the Local Plan, which was the adopted housing provision figure for the monitoring period. Policy H1 became five years old in November 2024, after the end of the monitoring period. A proposed updated policy H1 has been prepared, but the outcome of the standard method will also be relevant for monitoring five year supply in future iterations until such time as a new policy is adopted.
- 8.5 The total housing land supply accounting for C3 dwellings only is **6.03 years**, i.e. 4,264 (the total supply) divided by 707 (the annual remaining requirement incorporating buffer).
- 8.6 This version of the 5-year housing land supply deals only with dwellings within the C3 use class (although it also includes C4 houses in multiple occupation), so excludes consideration of other forms of housing such as student accommodation or residential care. These are included within the equivalent calculation under Indicator 12, which is considered the official housing land supply position.
- 8.7 Non-implementation rates are applied to sites which have not yet started in both the Five Year Supply and the Housing Trajectory. These rates have been revised in the recent version of the Housing and Economic Land Availability Assessment (HELAA) based on past rates of implementation. For sites with planning permission or a resolution to grant planning permission, this is 7%. Higher rates are applied to plan allocations (36% in the town centre, 42% outside the centre), but none of these constitute part of five year supply. The full version of the Housing Trajectory in Appendix III sets out the non-implementation rate that has been applied.

Indicator 12: Five year housing land supply including other forms of accommodation

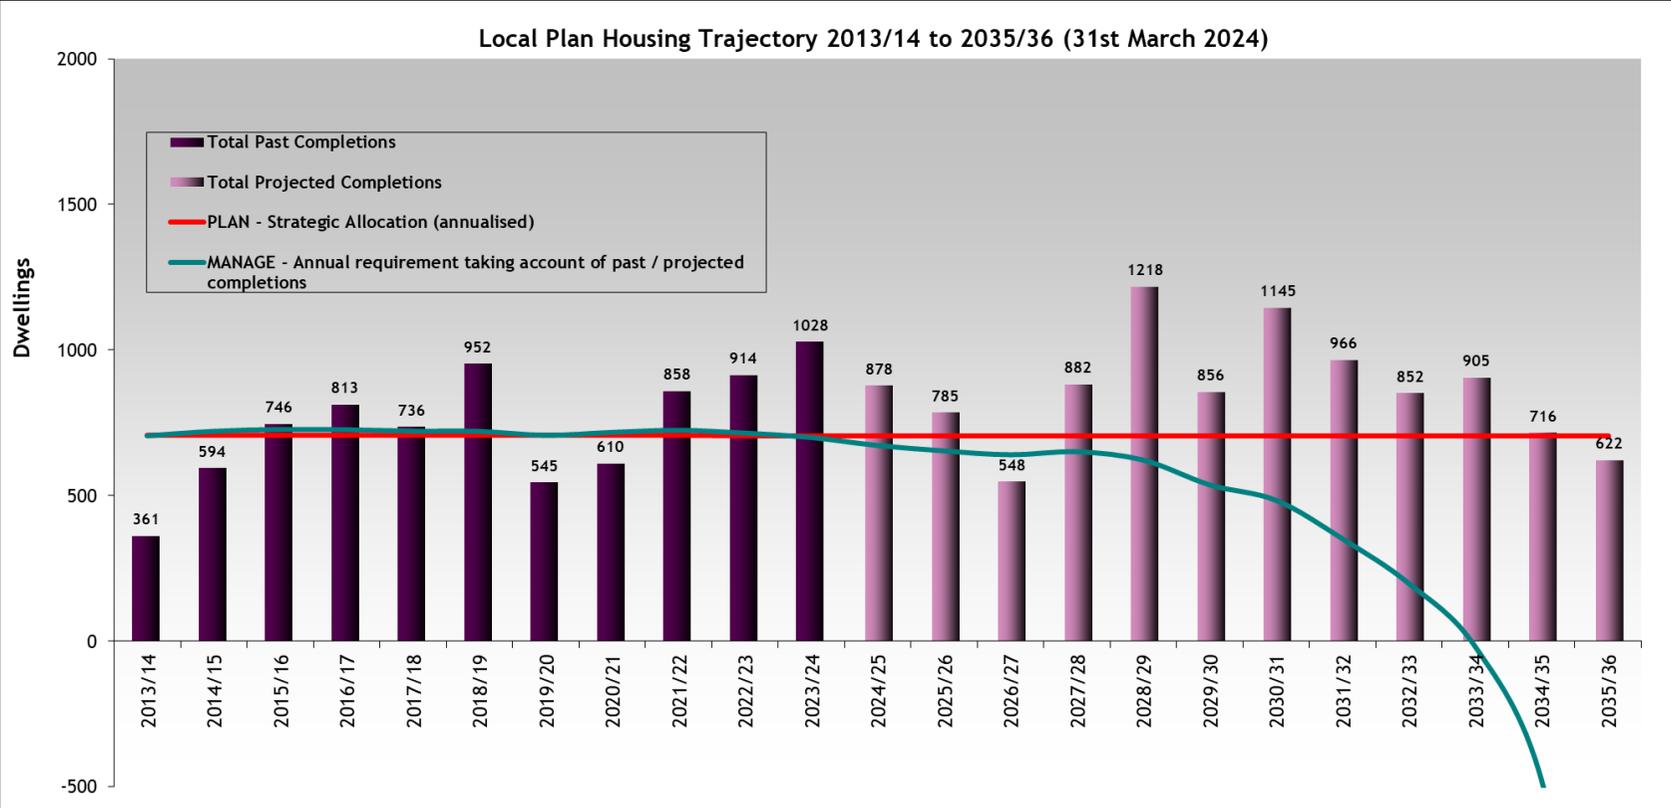

Table 8.3: Five year housing land supply including other forms of accommodation

Element of supply calculation	Dwellings
Total requirement based on Local Plan 2013-2036 (policy H1, H6, H12)	16,224
Net Completions 2013-2023	7,129
Net Completions 2023-2024	1,028
Residual requirement 2024-2036	8,067
Annual requirement for remaining 12 years, i.e. 8,067/12	672
Annual requirement for remaining 12 years with 5% buffer (NPPF para 74)	706
Total requirement for 5 years 2024/25-2028/29, i.e. 706 x 5	3,529
Hard commitments (strategic sites, i.e. 10 dwellings+) to be delivered 2024-2029	3,606
Soft commitments (strategic sites) subject to S106 to be delivered 2024-2029	225
Local Plan allocations to be delivered 2024-2029	0
Allowance for small site windfalls at 96 per annum	480
Total site-specific supply for 5 years 2024/25-2028/29	4,311

- 8.8 The total housing land supply is **6.11 years**, i.e. 4,311 (the total supply) divided by 706 (the annual remaining requirement incorporating buffer).
- 8.9 This version of the 5-year housing land supply assessment factors in forms of residential accommodation that are not dwellings within the C3 use class. Planning Practice Guidance clarifies that housing provision should take account of housing for older people, which may be within the C2 residential institution use class. It also states that student accommodation can count towards the housing requirement on the basis that it frees up other housing. Our approach also takes account of houses in multiple occupation (which forms an important source of accommodation in Reading) and other residential institutions. The key is that these should only be included as part of the supply if they have also been factored into need, to ensure consistency.
- 8.10 The methodology used to convert delivery of these other forms of residential accommodation to dwellings is explained in paragraph 8.40 in relation to Indicator 21.
- 8.11 The Council's view is that, because this is the most comprehensive assessment of residential accommodation supply, it is Indicator 12 which is Reading's official figure for 5-year housing land supply.

Indicator 13: Housing trajectory

Figure 8.2: Local Plan housing trajectory 2013/14 to 2035/36 as at 31st March 2024

The full table of sites and figures is contained in Appendix III

- 8.12 As can be seen from the trajectory as measured against Local Plan targets, total supply is expected to significantly exceed the overall Local Plan housing targets by 2036. This expected over-delivery has arisen over the last few years. Over the Local Plan period, there will be some fluctuation in comparison to the Local Plan targets, as more information becomes known on sites, and as they start to come forward and deliver, or are used for other purposes.
- 8.13 For the avoidance of doubt, the housing trajectory includes forms of accommodation other than C3 dwellings, and so it is based on the same figures as in the 5-year housing land supply in Indicator 12.

Indicator 14: Affordable housing completions

Table 8.4: Affordable housing completed 2023-24

Change in affordable homes	Rent (social/affordable)	Shared ownership	First homes	Other	Total
Gains	142	82	0	0	135
Losses	0	0	0	0	0
Net change	142	82	0	0	224

- 8.14 The amount of affordable housing delivered this year is the highest in recent years, boosted by much of the affordable housing for some large developments being delivered in this year. It is expected that affordable housing delivery will be somewhat lower next year, with 137 dwellings under construction, but future delivery will continue to be strong in line with high levels of overall delivery, albeit still well below the identified level of affordable housing need of 406 per year over the Local Plan period.

Indicator 15: Affordable housing secured

Table 8.5: On-site and off-site contributions to affordable housing secured in 2023-24

Size of site	Total homes permitted on sites subject to H3	On-site affordable homes secured	Off-site financial contribution secured	Equivalent affordable homes secured on- and off-site	Overall contribution as a proportion
1-4 dwellings	47	1	£399,206.65	4.99	10.6%
5-9 dwellings	35	0	£132,250.00	1.32	3.8%
10+ dwellings	1,365	122	£207,000.00	124.07	9.1%
All sites	1,447	123	£738,456.65	130.38	9.0%

- 8.15 Policy H3 of the Local Plan sets expectations for how much affordable housing will be secured as part of a planning permission, and these expectations differ according to the scale of site. This indicator considers the degree to which those proportions are achieved in planning permissions granted during the year.

- 8.16 A number of types of development do not result in a Section 106 agreement, and there are not therefore opportunities to secure affordable housing. This includes prior approvals and certificates of lawfulness. The policy also excludes replacement of a single dwelling with another single dwelling and conversion of a dwelling to self-contained flats where there is no new floorspace. These are not therefore included in the total homes permitted in table 8.5.
- 8.17 Since there is often a mix of on-site units and off-site financial contributions, there needs to be a way of converting this to a consistent measure which can be calculated as a percentage. Background information to the Local Plan estimated that a developer contribution of £100,000 was required to deliver one affordable unit, on the basis of an overall cost of £200,000, but with the Council then using the contribution to subsidise part of the build and borrow for the remaining costs. If a property were to be let at target rent, this would mean subsidising 50% of the build, so £100,000 is required. On individual sites, policy compliance can only be assessed on the basis of the Gross Development Value of the development, but the above represents a useful shorthand.
- 8.18 The overall proportion of affordable homes secured through Section 106 agreement in 2023-24 only meets the policy targets for the smallest band of sites, between 1-4 dwellings (10%). The overall proportion of affordable housing on sites of 5-9 dwellings falls a long way short of the policy target of 20%, at less than 4%. The proportion of affordable housing on sites of 10 or more dwellings, which covers the vast majority of homes permitted, falls significantly short of the policy target of 30%. This is mostly because by far the largest development permitted, at Vastern Court with up to 1,000 dwellings, was permitted with no affordable housing contribution due to viability. This masks the fact that the majority of developments of 10 dwellings or more permitted this year included a policy compliant, or virtually policy compliant, level of affordable housing.

Indicator 16: Dwellings completed and permitted during 2023-24 by size and type

Table 8.6: Dwellings completed (net change) during 2023-24 by size and type

Size of dwelling	Flats	Houses	Total	Proportion of total by size
1-bed/studio	509	1	510	50.0
2-bed	443	7	450	44.1
3-bed	22	21	43	4.2
4-bed	-1	21	20	2.0
5+ bed	0	-2	-2	-0.2
Total	973	48	1,021	100.0
Proportion of total by type	95.3	4.7	100.0	N/A

Table 8.7: Dwellings permitted (net change) during 2023-24 by size and type

Size of dwelling	Flats	Houses	Total	Proportion of total by size
1-bed/studio	260	0	260	56.5
2-bed	110	0	110	23.9
3-bed	24	38	62	13.5
4-bed	-2	32	30	6.5
5+ bed	0	-2	-2	-0.4
Total	392	68	460	100.0
Proportion of total by type	85.2	14.8	100.0	N/A

- 8.19 This indicator measures the overall proportion of the net change in dwellings which are flats or houses and the number of bedrooms. It includes development from all sources, including conversions and changes of use, which tend to provide smaller accommodation.
- 8.20 In the case of completions, almost all (94%) completed dwellings were for one- or two-bed dwellings, and around 95% were for flats rather than houses, which are particularly high levels this year. The very large majority of new accommodation therefore continues to be small and flatted, with family accommodation of three or more bedrooms being a small element of supply.
- 8.21 The picture for new permissions is also dominated by smaller units, albeit to a lesser extent, with 80% being one- or two-bedroom properties, and 85% being flats rather than houses. It is worth noting that the largest permitted development, for 1,000 dwellings at Vastern Court, is not included in the figures above because it is in outline with no set dwelling mix, although its inclusion would likely only increase the dominance by smaller flats.

Indicator 17: New build dwellings completed and permitted during 2023-24 by size and type

Table 8.8: New build dwellings completed (net change) during 2023-24 by size and type

Size of dwelling	Flats	Houses	Total	Proportion of total by size
1-bed/studio	419	3	422	44.7
2-bed	436	7	443	46.9
3-bed	22	31	53	5.6
4-bed	0	26	26	2.8
5+ bed	0	1	1	0.1
Total	877	68	945	100.0
Proportion of total by type	92.8	7.2	100.0	N/A

Table 8.9: New build dwellings permitted (net change) during 2023-24 by size and type

Size of dwelling	Flats	Houses	Total	Proportion of total by size
1-bed/studio	152	0	152	45.2
2-bed	81	1	82	24.4
3-bed	23	34	57	17.0
4-bed	0	44	44	13.1
5+ bed	0	1	1	0.3
Total	256	80	336	100.0
Proportion of total by type	76.2	23.8	100.0	N/A

- 8.22 This section deals with new build dwellings only, for the reason that the Council's housing mix policies refer only to new build dwellings. This is therefore more meaningful in evaluating the effectiveness of the Council's policies.
- 8.23 In terms of new build completions, only 9% of the total is for three-bed or more. This is some way below the policy target of 50% but is still slightly higher than the figure for all completions. This illustrates the difficulty of securing family housing in Reading and should continue to be carefully monitored. When dwellings in designated centres are excluded to more directly consider compliance with policy H2, the figure rises considerably, with 24% of new build completions outside centres being three-bed or more, but this still falls a long way short of the policy target.
- 8.24 The proportion of newly-permitted new build dwellings that are three-bed or more is higher than completions, at 30%, albeit, as mentioned in paragraph 8.20, the very large permission at Vastern Court is excluded due to the mix not being set. Once developments in centres are excluded, the proportion that are three-bed or more is 54%, which exceeds the policy target, albeit that this is only a small proportion of all new permissions for new build homes. This therefore emphasises the continued importance of securing larger family homes in future developments.

Indicator 18: New dwellings on previously developed land

Table 8.10: Dwellings completed on previously developed (brownfield) land 2023-24

Overall dwellings completed (net)	Dwellings completed on brownfield land (net)	Percentage of completions on brownfield land
1,021	835	81.8%

- 8.25 The vast majority of new development in Reading continues to take place on previously-developed land, unsurprisingly given the character of the Borough. Almost all of the non-brownfield dwellings are being delivered at Green Park Village, Reading's only large greenfield development of recent years, where there were 179 completed dwellings in 2023-24, although development is also now under construction at another major greenfield site at Reading Golf Club.

Indicator 19: Net additional gypsy and traveller pitches

- 8.26 No net additional permanent gypsy and traveller pitches have been brought forward in Reading Borough in 2023-24. A Gypsy and Traveller Accommodation Assessment was commissioned in November 2016 to assess the need for new pitches. This reported in September 2017, and identified a need for new permanent and transit pitches, which subsequently led to a consultation on potential sites, but the Council has not yet been able to identify appropriate sites to accommodate this need, and no sites are included in the Local Plan. A planning application was made in December 2021 for 7 transit pitches for gypsies and travellers (212037), and this was granted permission in March 2023.

Indicator 20: Residential development through prior approvals

Table 8.11: Residential prior approvals 2023-24

Status	Number of prior approvals	Amount of floorspace lost (sq m)	Dwellings gained
Newly approved 2023-24	5	519	9
Approved and not started at 31/03/2024	15	12,868	145
Underway at 31/03/2024	10	17,556	346
Completed during 2023-24	9	2,054	37

- 8.27 This indicator measures the various permitted development rights to convert existing floorspace to residential use or develop additional residential through a prior approval process. These rights were introduced at various times, but the most significant by far is conversion of offices to residential, which has been in force since 2013, and is now replaced by the right to convert commercial, business and service floorspace (class E) to residential.
- 8.28 In overall terms, the number of dwellings completed through this route has been low in comparison to recent years. It forms only 4% of total housing delivery, higher than last year's equivalent figure of 9%, but well down from the peak of 40% in 2016-17. There remain a significant number of dwellings with prior approval, including a large number that are under construction. An Article 4 direction came into force on 15 November 2022 which removed the main permitted development rights, including commercial to residential, in a number of areas in Reading including parts of existing centres and the main employment areas, and this may be in part the reason for the very low number of new permissions in 2023-24.

Table 8.12: Office to residential prior approvals 2023-24

Status	Number of prior approvals	Amount of floorspace lost (sq m)	Dwellings gained
Newly approved 2023-24	0	0	0
Approved and not started at 31/03/2024	2	8,899	86
Underway at 31/03/2024	6	15,343	309

Status	Number of prior approvals	Amount of floorspace lost (sq m)	Dwellings gained
Completed during 2023-24	2	1,398	22

- 8.29 This indicator measures the permitted development right to change the use of offices to residential, which has been in force since 2013. After changes to the use classes order, this right (class O) has been replaced by a new permitted development right (class MA).
- 8.30 The number of dwellings delivered through this permitted development right has been very low this year, which reflects the fact that many of these permissions have now either been completed or have expired. There remain a considerable number of prior approvals under construction under this now replaced permitted development right, with only two prior approvals remaining that have not yet commenced.

Table 8.13: Light industrial to residential prior approvals 2023-24

Status	Number of prior approvals	Amount of floorspace lost (sq m)	Dwellings gained
Newly approved 2023-24	0	0	0
Approved and not started at 31/03/2024	0	0	0
Underway at 31/03/2024	0	0	0
Completed during 2023-24	0	0	0

- 8.31 The permitted development right to convert light industrial to residential has only seen two minor instances in Reading, both of which were completed in previous years.

Table 8.14: Retail and related uses to residential prior approvals 2023-24

Status	Number of prior approvals	Amount of floorspace lost (sq m)	Dwellings gained
Newly approved 2023-24	0	0	0
Approved and not started at 31/03/2024	1	53	1
Underway at 31/03/2024	0	0	0
Completed during 2023-24	1	123	3

- 8.32 Conversions of retail and related uses to residential are much more limited than offices, and tend to only result in small numbers of dwellings per prior approval. Only 3 homes were delivered in 2023-24 as a result of this permitted development right, and only one prior approval remains outstanding.

Table 8.15: Class E uses to residential prior approvals 2023-24

Status	Number of prior approvals	Amount of floorspace lost (sq m)	Dwellings gained
Newly approved 2023-24	5	519	9
Approved and not started at 31/03/2024	11	3,916	57
Underway at 31/03/2024	4	2,213	37
Completed during 2023-24	6	533	12

- 8.33 The new permitted development right to convert class E uses to residential has taken over from the office to residential permitted development rights, and there have been some new approvals this year as well as some completions, although these are relatively low. The Article 4 direction is likely to have impacted the new permissions coming forward this year.

Table 8.16: Residential storeys on commercial buildings prior approvals 2023-24

Status	Number of prior approvals	Dwellings gained
Newly approved 2023-24	0	0
Approved and not started at 31/03/2024	1	1
Underway at 31/03/2024	0	0
Completed during 2023-24	0	0

- 8.34 Another new permitted development right allows for additional storeys to provide residential development over commercial buildings. Only one such prior approval has been granted in Reading.

Indicator 21: Other forms of residential (residential care, HMOs and student accommodation)

Table 8.16: Delivery of other forms of residential 2023-24

Status	Residential care bedspaces	HMO (sui generis) bedspaces	Student bedspaces	Estimated dwelling equivalent (see below)
Newly permitted 2023-24	27	30	0	14
Permitted and not started at 31/03/2024	525	8	0	265
Underway at 31/03/2024	8	8	72	53
Completed during 2023-24	0	60	0	7

- 8.35 There are various other forms of residential which do not count as 'dwellinghouses' within use class C3 and are not therefore included in dwelling completion figures. This includes residential care within the C2 use class, and large houses in multiple occupation (with more than 6 people) and dedicated student accommodation, both of

which tend to count as 'sui generis', so within their own use class. Some retirement apartments for older people fall within the C3 use class and are counted within the overall dwelling figures, and are not included here. Similarly, small HMOs within the C4 use class (between three and six people) are included within the dwelling figures and not counted here.

- 8.36 The Berkshire Strategic Housing Market Assessment considered the need for new residential care bedspaces (within the C2 use class) alongside more general housing requirements. It identified a need for 253 bedspaces within Reading up to 2036, which policy H7 of the new Local Plan aims to provide. This is a reasonably modest total. There was a net gain of 43 new residential care bedspaces delivered this year. In total, a net loss of 14 residential care bedspaces has been recorded over the period of the new Local Plan so far (i.e. between 2013 and 2023).
- 8.37 There is no identified need for large HMOs. There was a sizeable gain of HMO bedspaces this year, generally through changes of use of large dwellings to HMOs, thus offsetting a loss of residential counted within the net change in dwellings.
- 8.38 There is known to be a need for new student accommodation, and the University of Reading currently has difficulties in meeting its guarantee of University accommodation for new students who listed the University as their preferred choice. At the moment, the shortfall in meeting this guarantee is in the region of 1,000 spaces. There have been no bedspaces completed this year.
- 8.39 Planning Practice Guidance clarifies that overall housing provision should take account of housing for older people, which may be within the C2 residential institution use class. It also states that student accommodation can count towards the housing requirement on the basis that it frees up other housing. Therefore, there is a need to convert these other forms of accommodation to an equivalent number of residential units to include within the housing trajectory and housing land supply. Our approach also takes account of houses in multiple occupation (which forms an important source of accommodation in Reading) and other residential institutions. The key is that these should only be included as part of the supply if they have also been factored into need, to ensure consistency.
- 8.40 The different sources of housing have been dealt with as follows:

- **Student accommodation**

Where there is a cluster of bedrooms with shared kitchen and living room facilities, this is considered to be equivalent to a single dwelling, as are studios which are entirely self-contained. For study bedrooms with some shared facilities, our approach assumes that four student bedspaces equate to one dwelling. This is based on the fact that, where students occupy traditional housing, it tends to be terraced housing close to the University for 3-5 people.

The Statement of Common Ground signed between the Council and University of Reading recognises an existing need for first year accommodation of 1,000 bedspaces, and this is reflected in the Local Plan. It has been added to the need within the housing land supply calculations (see Indicator 12) as an equivalent of 250 dwellings, on the basis of the assumption above.

- **Houses in Multiple Occupation**

The approach to HMOs is largely similar to that for student accommodation. Small C4 HMOs are already counted as 'dwellings' in our monitoring anyway. For larger 'sui generis' HMOs, it is considered that, where it is a cluster of bedrooms in a dwelling style with shared kitchen and living facilities, it is equivalent to a single dwelling. Where it is bedsits with shared toilet facilities, it is assumed that four bedsits equates to one dwelling. There is no additional need for HMOs identified in the SHMA or Local Plan, and it forms part of general housing need.

- **Residential care and other accommodation for older people**

Some accommodation for older people, such as extra care housing, tends to count as a C3 dwelling anyway, where it is a wholly self-contained residential unit, and this section does not therefore apply in those cases.

Provision of residential care, or other specialist housing for older people also potentially frees up existing housing to help meet needs. However, it will not be the case that each residential care (or equivalent) space equates to one dwelling. A partner may stay living in the main home, for instance, or someone may move into care after living with family, either in the main home or in an annexe. The assumption has been made that entirely self-contained units free up one dwelling, whereas in care accommodation with shared facilities, two new residential care spaces free up one new home.

The SHMA has also identified a fairly limited need for new residential care on top of the overall housing need, of 253 bedspaces over the whole plan period, which is identified in policy H6 of the Local Plan. Using the two to one ratio above, a need of 127 over the plan period is added to the overall housing requirement within indicators 12 and 13.

- 8.41 On the basis of the above methodologies, a residential equivalent of 7 dwellings has been completed this year and can be added to the dwelling completions of 1,021 for the purposes of the housing trajectory and housing land supply calculations (Indicators 12 and 13).

Indicator 22: Self and custom build

- 8.42 The Council has a statutory duty to grant permission to enough serviced plots for self and custom-housebuilding to meet the need in the relevant base period. Base periods run from 31st October in one year to 30th October the following year, with the first base period being 31st October 2015 to 30th October 2016. Authorities have three years to grant sufficient permissions, which means that the relevant periods for this report are the fifth base period (31st October 2019 to 30th October 2020), for which sufficient permissions should have been granted by 30th October 2023, and the sixth base period (31st October 2020 to 30th October 2021), for which sufficient permissions should have been granted by 30th October 2024. Therefore, information in this section relates to the base periods rather than the monitoring year used for other parts of this document.

Table 8.17: Entries on the self-build register in relevant base periods

Status	Part 1 entries (individual)	Part 1 entries (groups)	Part 2 entries (individual)	Part 2 entries (groups)
On register at end of seventh base period (31 st October 2022 to 30 th October 2023)	51	0	27	0
Added to register during eighth base period (31 st October 2023 to 30 th October 2024)	0	0	2	0
Total on register at end of eighth base period (30 th October 2024)	51	0	29	0

- 8.43 Table 8.17 shows changes to the self-build register in the 2023-23 base period. It shows that there have been only 2 additions to Part 2 in that time. It is worth noting that there have been changes to the way the register operates since its introduction. On 1st April 2019, the Council introduced a test of sufficient resources and a local connection test. As a result, the Self Build Register has been divided into a Part 1 and Part 2. Part 1 contains those who have demonstrated a local connection, and it is the number of entries on Part 1 which will be considered in exercising the statutory duty. Part 2 includes those who do not pass the local connection test. This has had the effect of significantly reducing the scale of demand on the register, and this will be likely to affect whether the authority complies with the duty in future years.
- 8.44 In terms of monitoring supply, planning permissions in Reading do not generally specify whether a development is self-build. There could be an exception to this where plots are set aside as part of a larger development to comply with Local Plan policy H3, but this has not yet happened in Reading. Therefore, the only way in which the Council can monitor its statutory duty is through the granting of self-build relief from the Community Infrastructure Levy. Table 8.18 sets out the number of permitted dwellings since the start of the first base period (31st October 2015) and over the most recent base period for which self-build relief has been granted. As can be seen, no self-build dwellings have been added to the supply in 2023-2024.

Table 8.18: Self-build dwellings granted permission 2015-2024

Status	Dwellings
Permitted dwellings granted over first eight base periods (31 st October 2015-30 th October 2023) with self-build relief	56
Permitted dwellings granted 31 st October 2023-30 th October 2024) with self-build relief	0
Total permitted dwellings granted 31 st October 2015-30 th October 2024) with self-build relief	56
Permitted dwellings with self-build relief granted 1 st April 2019 (i.e. since changes to the register) – 30 th October 2024	36

- 8.45 To assess compliance with the statutory duty, demand on the register needs to be compared with supply of permissions. As set out in paragraph 8.39, supply needs to

be compared to demand from three years before. Table 8.19 sets out the most recent information. Please note that the permissions for previous base periods may have changed from previous versions of the AMR, because it is often not clear that a development is self-build until relief is granted, which may be a year or two after permission is granted.

Table 8.19: Self-build demand and supply by base period

Base period	Total entries on register at end of base period	Total self-build permissions since 30 th October 2015	Demand vs supply	Duty met?
First (31 st October 2015 to 30 th October 2016)	41	28 (by 30 th October 2019)	-13	No
Second (31 st October 2016 to 30 th October 2017)	112	41 (by 30 th October 2020)	-71	No
Third (31 st October 2017 to 30 th October 2018)	158	47 (by 30 th October 2021)	-111	No
Fourth (31 st October 2018 to 30 th October 2019)	13 (Part 1)	33 (by 30 th October 2022) ²	+20	Yes
Fifth (31 st October 2019 to 30 th October 2020)	30 (Part 1)	36 (by 30 th October 2023)	+6	Yes
Sixth (31 st October 2020 to 30 th October 2021)	38 (Part 1)	36 (by 30 th October 2024)	-2	No
Seventh (31 st October 2021 to 30 th October 2022)	45 (Part 1)	TBC (by 30 th October 2025)	TBC	TBC
Eight (31 st October 2022 to 30 th October 2023)	51 (Part 1)	TBC (by 30 th October 2026)	TBC	TBC
Ninth (31 st October 2023 to 30 th October 2024)	51 (Part 1)	TBC (by 30 th October 2027)	TBC	TBC

8.46 As can be seen from Table 8.19, the number of dwellings granted self-build relief up to the end of October 2021 was consistently less than the need for the relevant base period. This is unsurprising given that a policy to secure self-build housing on larger developments was only adopted in November 2019, and that the mostly flatted development in Reading does not lend itself to self-build. The changes to the register

² The supply of self-build properties has been counted from the date of changes to the self-build register (i.e. including only self-build relief granted after 1st April 2019), and the balance of supply and demand was reset to zero at that date. This is considered to be the only appropriate way to take the changes to the register into account.

in 2019 initially changed this picture with the supply of self-build dwellings rising above the demand for two base periods, but demand has now once again started to slightly exceed supply, meaning that for the most recent base period the duty is not met.

Conclusion: Are policies fulfilling their purpose?

8.47 In terms of the strategic purpose of policies, monitoring this year indicates the following conclusions.

- ***Ensure a good supply of housing of 689 dwellings per annum 2013-2036***

There has been a net gain of 1,021 homes during 2023-24, which is a very strong level of supply, significantly above both the policy requirement and identified need, and the second highest level in decades. The amount of homes under construction also remains high, which will ensure high levels of delivery in the coming years.

- ***Ensure a good supply of affordable housing***

Affordable housing delivery has also been very strong in 2023-24, in line with the overall delivery of new homes. A healthy number of affordable homes are under construction, and this is expected to lead to continued delivery in forthcoming years.

- ***Ensure a mix of housing in Reading including provision of family housing***

In terms of both new permissions and new completions, small (1 and 2-bed) flats represent a large majority of the new supply this year. In part this is due to the reliance on central Reading, which is not subject to the same dwelling mix policies. However, it also reflects dwellings delivered by permitted development rights where the Council has no control over size and type.

- ***Ensure high standards for new homes***

As set out in section 5, major new build residential proposals have generally complied with policies seeking more ambitious standards in terms of emissions. However, there is continued development through permitted development rights, where the Council can exercise very few controls in terms of standards of new homes.

- ***Set out policy for sites for student accommodation and for gypsies and travellers***

No new student bedspaces have been completed this year. No additional pitches have been provided or identified to meet the need for 10-17 permanent pitches for gypsies and travellers.

9. Retail, leisure and culture

9.1 The key policies relating to retail, leisure and culture are as follows:

- RL1: Network and Hierarchy of Centres
- RL2: Scale and Location of Retail, Leisure and Culture Development
- RL3: Vitality and Viability of Smaller Centres
- RL4: Betting Shops and Payday Loan Companies
- RL5: Impact of Main Town Centre Uses
- RL6: Protection of Leisure Facilities and Public Houses

9.2 The main strategic purpose of policies is as follows:

- Direct retail, leisure and culture development to existing centres;
- Preserve the network and hierarchy of centres; and
- Manage the mix of uses within smaller centres to ensure a strong retail presence and prevent domination by takeaways.

Indicator 23: Proportion of retail and leisure floorspace permitted during 2023-24 that is in a designated centre

Table 9.1: Proportion of retail and leisure floorspace permitted during 2023-24 that is in a designated centre

Location	Retail and leisure floorspace (sq m)
Total in centres	20,605
Total in Reading	20,956
% of total in centres	98%

9.3 The uses covered within the 'retail and leisure' category are:

- Retail, financial and professional, food and drink and indoor leisure and recreation uses within the E use class;
- Hotels within the C1 use class; and
- Takeaways, public houses, betting shops, payday lenders, launderettes, amusement arcades, casinos, theatres, cinemas, bingo halls and other related uses which are considered sui generis uses.

9.4 Almost all permissions for retail, leisure and culture development that have been granted in 2023-24 have been within centres, with the only two exceptions being drive-through food uses. The policy approach does not rule out development outside centres, as long as a sequential approach can be followed, so 100% development within centres is not expected.

9.5 Note that Indicator 23 is not directly comparable with Indicator 25. This is because, in order to calculate a percentage, gross figures have to be used to exclude losses for 23, whereas net figures were used for 25.

Indicator 24: Proportion of retail and leisure floorspace completed during 2023-24 that is in a designated centre

Table 9.2: Proportion of retail and leisure floorspace completed during 2023-24 that is in a designated centre

Location	Retail and leisure floorspace (sq m)
Total in centres	6,725
Total in Reading	13,073
% of total in centres	51%

- 9.6 Just over 50% of completed development in 2023-24 for retail, leisure and culture have been within centres. This is mainly due to the completion of the new Rivermead Leisure Centre this year just outside central Reading.
- 9.7 Note that Indicator 24 is not directly comparable with Indicator 26. This is because, in order to calculate a percentage, gross figures have to be used to exclude losses for 24, whereas net figures were used for 26.

Indicator 25: Amount of retail and leisure floorspace permitted during 2023-24

Table 9.3: Amount of retail and leisure floorspace permitted during 2023-24

Location	Net change in retail and leisure floorspace (sq m)
Central Reading	1,979
Oxford Road West	-139
Total in centres	1,840
Total in Reading	869

- 9.8 In terms of new permissions, permissions would lead to an overall loss both in centres and elsewhere. The most significant permission involves the loss of a retail park at Vastern Court and its replacement with a mixed use development that would include retail and leisure uses on the ground floor, but there were also major permissions involving hotel and serviced apartments in the town centre.

Indicator 26: Amount of retail and leisure floorspace completed during 2023-24

Table 9.4: Amount of retail and leisure floorspace completed during 2023-24

Location	Net change in retail and leisure floorspace
Central Reading	596
Total in centres	596
Total in Reading	-2,082

- 9.9 In terms of completions, the changes within centres have generally seen an increase in floorspace. There has been an overall net loss across the Borough however, which relates to the loss of some leisure facilities in out of centre locations, in particular Reading Golf Club clubhouse and the old Rivermead Leisure Centre.

Indicator 27: Proportion of key frontage in smaller centres in A1/A2 and A5 use

- 9.10 The Use Classes Order changed in 2020 in a way that meant that the Council lost the ability to control changes of use between retail (was A1), financial and professional (A2), restaurants and cafes (A3), offices and light industrial (B1), medical and health facilities (part of D1) and indoor leisure (D2), all of which now fall within a single use class E. With this change, and with the emerging Local Plan Partial Update removing this as an indicator, there is not considered to be any benefit in monitoring this.

Indicator 28: Proportion of primary frontage in Central Reading in A1 and A2 use

- 9.11 The Local Plan in policy CR7 identifies primary frontages in Central Reading and seeks to resist changes of use that would reduce the proportion of each frontage in A1 or A2 use below 50%. These frontages were last surveyed in December 2021. However, with the change to use class E there is not considered to be any benefit in monitoring this, as set out in relation to the previous indicator.

Indicator 29: Retail vacancy in centres

Table 9.5: Retail vacancy within defined centres, 2023

Centre	Last survey	All shop units	Units vacant	% vacancy	Change from 2021
Reading Centre	2023	798	138	17.3	-1.0
Basingstoke Road North	2023	16	0	0.0	None
Caversham	2023	117	11	9.4	-1.9
Cemetery Junction	2023	45	4	8.9	-6.7
Christchurch Road	2023	14	2	14.3	None
Coronation Square	2023	11	3	18.2	+9.1
Dee Park	2023	3	0	0.0	None
Emmer Green	2023	21	1	4.8	+4.8
Erleigh Road	2023	14	0	0.0	-7.1
The Meadway	2023	27	8	29.6	+7.4
Northumberland Avenue North	2023	8	2	25.0	+25.0
Oxford Road West	2023	149	14	9.4	+0.6
Shinfield Road	2023	28	0	0.0	None
Tilehurst Triangle	2023	69	4	5.8	None

Centre	Last survey	All shop units	Units vacant	% vacancy	Change from 2021
Wensley Road	2023	4	0	0.0	None
Whitley	2023	29	2	6.9	None
Whitley Street	2023	38	4	10.5	+7.9
Whitley Wood	2023	7	0	0.0	-14.3
Wokingham Road	2023	50	2	4.0	None
TOTAL	2023	1,448	195	13.5	-0.3

- 9.12 The levels of vacancy shown are based on surveys during 2023. The Local Plan monitoring indicator expects this to be monitored biannually, so the data presented here is the same as in the 2023 AMR. In general, some level of vacancy is to be expected to allow for turnover in the market, but vacancy levels above 10% could be cause for concern.
- 9.13 Overall, vacancy has declined very slightly since 2021, but remains higher than what would usually be considered a healthy rate. Clearly, recent years have been challenging for retail, with the Covid-19 pandemic arriving at a time when many retailers were already in a precarious situation, and high levels of vacancy are unsurprising.
- 9.14 Vacancy in the centre of Reading is the fourth-highest of all of the centres surveyed, at 17.3%, albeit it has reduced somewhat from 2021. It remains significantly above the 10% guideline, and this clearly presents a challenge to the centre. All units in the Bristol and West Arcade are vacant pending redevelopment, and other parts of the town centre where vacancy is particularly high are Station Road, Market Place, Harris Arcade and Friar Street. There are a number of new units that are part of new developments that have not yet been let, notably at Station Hill, Kenavon Drive and Queens Walk. In addition to the above figures, there is a figure for the Business Improvement District area (covering the town centre core) of 13.88% of units vacant in Quarter 4 of 2023, compiled by Fiona Brownfoot of Hicks Baker. The BID area differs from the town centre boundary on which the figures in table 6.6 have been assembled, and it indicates lower levels of vacancy within the shopping core.
- 9.15 The smaller centres generally have a lower level of vacancy than the town centre. The exceptions are the Meadway, Northumberland Avenue North and Coronation Square with respective vacancy rates of 29.6%, 25.0% and 18.2%. All of these have seen significant increases in vacancy since 2021, as has Whitley Street. The Meadway is a centre with established issues, and there are emerging development proposals to significantly improve it. The other centres are in areas with high levels of deprivation. However, a number of other centres have seen a decrease in vacancy, in particular Cemetery Junction, Erleigh Road and Whitley Wood.

Conclusion: Are policies fulfilling their purpose?

- 9.16 In terms of the strategic purpose of policies, monitoring this year indicates the following conclusions.

- ***Direct retail, leisure and culture development to existing centres***
The majority of newly permitted and completed floorspace is within designated centres this year.
- ***Preserve the network and hierarchy of centres***
There have not been any developments of a scale or in a location that would disrupt the network and hierarchy of centres.
- ***Manage the mix of uses within smaller centres to ensure a strong retail presence and prevent domination by takeaways***
No monitoring has taken place this year due to changes in permitted development rights.

10. Transport

- 10.1 The key policies relating to transport are as follows:
- TR1: Achieving the Transport Strategy
 - TR2: Major Transport Projects
 - TR3: Access, Traffic and Highway Related Matters
 - TR4: Cycle Routes and Facilities
 - TR5: Car and Cycle Parking and Electric Vehicle Charging
- 10.2 The Council continues to secure developer contributions via the Community Infrastructure Levy and, for site specific matters, S106 planning obligations towards a range of transport measures and the delivery of Reading's transport strategy. All planning applications requiring the submission of a Travel Plan included one or were a requirement through condition. The Council's Parking Standards SPD (Adopted Oct 2011) continued to be used to assess the appropriate level of parking.
- 10.3 A new Reading Transport Strategy 2036 was in production during the monitoring year, and was adopted in October 2024.

Indicator 30: Progress of major transport schemes

- 10.4 There are a number of transport schemes, both major and minor, that are underway or are in preparation in the Borough. The Transport pages of the Council's website³ include information on the projects. In addition, a report was presented to the Council's Strategic Environment, Planning and Transport on 13th March 2024 that reported on progress on some of the major schemes during the monitoring year. This was progress as reported at the end of the monitoring year, and is not necessarily the latest information at the time of publication of this report. The reported progress is summarised below.

³ [Transport schemes and projects - Reading Borough Council](#)

Table 10.1: Progress of major transport schemes to 31st March 2024

Scheme	Progress to 31 st March 2024
South Mass Rapid Transit	<p>Phase 1A (between M4 J11 and Imperial Way) already complete at December 2016.</p> <p>Phase 1B and 2 (between Imperial Way and Lindisfarne Way) completed December 2017.</p> <p>Phase 3 (London Street, Bridge Street, A33 outbound approach to Rose Kiln Lane) completed 2020.</p> <p>Phase 4 (outbound between Rose Kiln Lane and Lindisfarne Way and upgrade of signals at A33/Bennet Road gyratory) completed 2023.</p> <p>Funding for phase 5 (an additional lane over the Kennet between the Rose Kiln Lane and Kennet Island junctions to link outbound elements) has been secured as part of the Bus Service Improvement Plan (BSIP) grant funding award. Detailed design is complete and works started on site in March 2024</p>
Reading Green Park Station	<p>This project has proceeded in partnership with Network Rail and Great Western Railway, who have provided additional funding. Construction of the interchange and station had been underway for some time, and the station opened in May 2023.</p>
Reading West Station Upgrade	<p>Council has been working with Great Western Railway and Network Rail on plans. Stepped access to town centre side delivered by Network Rail in 2019.</p> <p>Funding secured for improved facilities in November 2019, and planning permission for the detailed design was secured in January 2021. Construction works for highway and interchange commenced February 2021, and were largely complete at the end of 2023-24, albeit that it needed to await railway sign-off processes were complete before opening. This does not include accessibility enhancements, and Council working with partners to secure further funding opportunity.</p>
Third Thames Crossing East of Reading	<p>Production of Outline Strategic Business Case complete September 2017. High-level feasibility study completed in October 2019 and confirms feasibility of river crossing in the proposed location. Transport for the South East has submitted proposal to the DfT for consideration for funding. Council continuing to work with the Cross Thames Travel Group to consider options.</p>

- 10.5 Of the other major transport projects outlined in the Local Plan, Cow Lane Bridges, National Cycle Network route 422 and Thames Valley Park and Ride (in Wokingham Borough) have been completed in previous years.

11. Natural Environment

11.1 The key policies relating to the natural environment are as follows:

- EN7: Local Green Space and Public Open Space
- EN8: Undesignated Open Space
- EN9: Provision of Open Space
- EN10: Access to Open Space
- EN11: Waterspaces
- EN12: Biodiversity and the Green Network
- EN13: Major Landscape Features and Areas of Outstanding Natural Beauty
- EN14: Trees, Hedges and Woodlands
- EN18: Flooding and Drainage

11.2 The main strategic purpose of policies is as follows:

- Protect and, where appropriate, enhance areas of biodiversity significance;
- Protect the character of key areas of landscape;
- Protect existing trees and secure new tree planting;
- Prevent development from increasing the risk of flooding or increasing the risk to life and property from flooding; and
- Protect important areas of open space and avoid net loss of recreational public open space.

Indicator 31: Number of Local Wildlife Sites in positive conservation management

Table 11.1: Local Wildlife Sites in positive conservation management in Reading 2019-2024

Year	Number of Local Wildlife Sites	Number of Local Wildlife Sites under positive conservation management	Percentage of Local Wildlife Sites under positive conservation management
2020-2021	19	15	79%
2022-2023	20	12	60%
2023-2024	20	12	60%

11.3 There are no nationally (such as Sites of Special Scientific Interest) or internationally (such as Special Protected Areas) protected wildlife sites in Reading. However, there are a number of Local Wildlife Sites.

11.4 Local Wildlife Sites are non-statutory sites of importance for nature conservation that receive protection from the adverse impact of development under local planning policy. In Berkshire, existing and proposed sites are regularly assessed against a set

of criteria by the Berkshire Local Wildlife Selection Panel, which comprises representatives from the Unitary Authorities in Berkshire and wildlife experts and organisations⁴. In Reading between 3 and 5 sites are surveyed each year and assessed by the selection panel.

- 11.5 The 2024 data is the same as the 2023 data, but this shows a decrease in the proportion of sites in positive conservation management from 79% in 2021 to 60% in 2023 and 2024. There is one additional Local Wildlife Site, but the change is largely due to existing sites no longer being identified as being within positive conservation management.
- 11.6 The proportion in Reading is slightly above the Berkshire average of 55%.

Indicator 32: Area of Biodiversity Action Plan priority habitats in Reading

Table 11.2: Areas of Biodiversity Action Plan priority habitats in Reading

UK Biodiversity Action Plan priority habitat	Area (hectares)
Coastal and floodplain grazing marsh	124.5
Eutrophic standing waters	10.9
Lowland beech and yew woodland	2.4
Lowland fens	25.3
Lowland meadows	4.8
Lowland mixed deciduous woodland	113.4
Open mosaic habitats on previously developed land	34.8
Ponds	0.1
Possible priority grassland habitat	0.5
Reedbeds	1.1
Rivers	7.1
Traditional orchards	1.2
Wet woodland	9.9
Wood pasture and parkland	34.9
Total	370.9

- 11.7 The total area of priority habitat in RBC has been calculated at 370.9 ha, approximately 10% of the land area. TVERC carry out the analysis which is based on analysis of aerial photographs, and augmented by ground based observations in some situations. The most recent data that has been provided is from 2022, and is therefore the same as the data reported in the 2023 AMR. The overall amount of priority habitat is higher than the previous survey in 2018 (360.2 ha). This difference

⁴ The panel comprises representatives from Thames Valley Environmental Records Centre (TVERC), the local authorities in Berkshire, Berkshire, Buckinghamshire and Oxfordshire Wildlife Trust (BBOWT), Natural England and wildlife recorders.

is primarily down to differences in mapping and measuring from aerial photos rather than changes to habitats on the ground.

Indicator 33: Development in Major Landscape Features

Table 11.3: Development newly permitted and completed in Major Landscape Features

Status	Dwellings in major landscape features	Non-residential floorspace in major landscape features (sq m)
Newly permitted 2023-24	0	0 sq m
Completed 2023-24	1	-1,970 sq m

- 11.8 There has been a net gain of a single dwelling and a net loss of non-residential floorspace completed in a Major Landscape Feature as defined in policy EN14 of the Local Plan this year. There have been no new permissions for dwellings or non-residential floorspace in a Major Landscape Feature.

Indicator 34: Development in Flood Zones 2 and 3

Table 11.4: Development newly permitted and completed in Flood Zones 2 and 3

Status	Dwellings on sites wholly or partly in Flood Zones 2 or 3	Non-residential floorspace on sites wholly or partly in Flood Zones 2 or 3 (sq m)
Newly permitted 2023-24	1,090	21,377 sq m
Completed 2023-24	464	-4,839 sq m

- 11.9 In terms of permissions, around 75% of new permissions for residential have been on sites wholly or partly in flood zones 2 and 3. This is almost entirely on one town centre site allocated in the Local Plan. Most of the non-residential floorspace granted is also on this same site.
- 11.10 A large proportion of new completions for residential development, around 45%, have taken place on sites wholly or partly in flood zones 2 and 3, which stem mainly from the completion of a significant number of dwellings in large town centre sites that are partly in flood zone 2 and one ongoing greenfield development. There has been a net loss of non-residential development on sites wholly or partly in flood zones 2 and 3.
- 11.11 Given the location of significant parts of central Reading, along with some of the employment areas and Caversham district centre, within flood zones 2 and 3, it is not surprising that some level of development takes place, and the Local Plan allocates a number of sites in flood zones 2 and 3. However, this is generally re-use of previously developed land, and is subject to the flooding tests in the NPPF.

Indicator 35: Gains and losses of public open space

Table 11.5: Changes in unrestricted open space during 2023-24

Site	Gain (ha)	Loss (ha)	Description
Land at Kenavon Drive	0.13	0	New formal open space
Green Park Village	0.15	0	New informal open space as frontage to site
TOTAL	0.28	0	N/A

- 11.12 The 2007 Open Spaces Strategy (OSS) mapped open space on the basis of access, as ‘unrestricted’, ‘limited’ or ‘restricted’. An update to this strategy was produced in 2018 to support the Local Plan. It is changes to unrestricted open space which is set out in the table above, as this is of greatest value in fulfilling a recreational function. It should be noted that not all ‘unrestricted’ open space is recreational public open space, as it may also include amenity land and town squares.
- 11.13 There has been a small net gain of 0.28 hectares of unrestricted open space, as a result of small areas of open space being delivered as part of two major developments.
- 11.14 In total, since 2007 there has been a net gain of 7.49 ha of unrestricted open space. Within this, there has been a net loss of 0.735 ha since the start of the Local Plan period in 2013 (this was a net gain until 2022-23). The overall unrestricted open space of Reading is estimated at 422.7 ha at the end of the monitoring year.
- 11.15 There has been a significant net loss of 4.27 ha of open space with ‘limited’ access over the 2023-24 period, all of which was a partial loss of the Reading Golf Club site for the first phases of the residential development. There has been no change in open space with ‘restricted’ access over the same period when compared to the areas mapped in 2007, and as updated in the 2018 update note and in 2017-23.

Indicator 36: Tree planting

Table 11.6: Gains and losses of trees (where known) in 2023-24

Site	Gains	Losses	Net change
Council trees	421	104	+317
Trees on development sites (estimated)	318	132	+186
Other trees (where known)	Not known	Not known	Not known
TOTAL	739	236	+503

- 11.16 The Council adopted a new Tree Strategy in 2021 that included ambitious aims to increase tree planting and tree canopy cover across the Borough. This included planting 3,000 trees on Council land over a ten-year period. In addition to policy EN14 that seeks additional tree planting on development sites, it is clearly vital that

additional tree planting from all sources is achieved. Trees have multiple benefits, including playing a key role in addressing the Climate Emergency.

- 11.17 It is therefore important to monitor tree planting from all sources. This is the second year that this has been reported in the AMR or in any other publication. There have been a total of 739 trees planted in 2023-24 that are known with 236 being felled or removed, meaning a net gain of 503. This is a lower net gain than last year. It is worth noting that a large number of trees have been felled in 2023-24 as part of the Reading Golf Club development, although there will ultimately be a net increase in trees on that site. It is important to be aware that the figure for development sites is an estimate based on the development monitoring site visit, where it is not always possible to see the entirety of the site. The Council is not resourced to fully monitor landscaping conditions on development sites. This means that the overall figures can also only be an estimate.
- 11.18 It is important to note that the Council can only fully monitor its own tree planting or trees on development sites. We are only aware of tree planting on other land if it is reported to us, and this is seldom the case, and there has been no such reporting in 2023-24. The figure for all tree planting is therefore very much a minimum.
- 11.19 It is also important to bear in mind that the raw figures for numbers of trees planted and felled do not provide the full picture in terms of the quality of trees. Much of the planting will be of young trees that will take years to reach full size and realise the potential benefits in terms of climate mitigation, adaption, biodiversity and landscape benefits. Removed trees may be more mature, although many of these on development sites will also have been low-quality.

Conclusion: Are policies fulfilling their purpose?

- 11.20 In terms of the strategic purpose of policies, monitoring this year indicates the following conclusions.
- ***Protect and, where appropriate, enhance areas of biodiversity significance***
There has been a net increase in areas of priority habitat between 2020 and 2022 although this has been generally due to changes in mapping rather than changes on the ground.
 - ***Protect the character of key areas of landscape***
There have been no new permissions for a net increase in development in the major landscape features, although one dwelling has been completed.
 - ***Protect existing trees and secure new tree planting***
A significant net gain in trees has been recorded, and this includes exceeding the aim of planting at least 300 trees per year on Council land.
 - ***Prevent development from increasing the risk of flooding or increasing the risk to life and property from flooding***
Whilst relatively significant levels of development are occurring in flood zones 2 and 3, this is reflective of the character of Reading, where the centre of Reading is partially within these areas. Development that is taking place in

these areas is often redevelopment or conversion of existing buildings, whilst individual proposals have been subject to the requirement to demonstrate compliance with national and local flooding policies.

- ***Protect important areas of open space and avoid net loss of recreational public open space***

There has been a small net gain of unrestricted open space during the monitoring year.

12. Historic Environment

12.1 The key policies relating to the historic environment are as follows:

- EN1: Protection and Enhancement of the Historic Environment
- EN2: Areas of Archaeological Significance
- EN3: Enhancement of Conservation Areas
- EN4: Locally Important Heritage Assets
- EN5: Protection of Significant Views with Heritage Interest
- EN6: New Development in a Historic Context

12.2 The main strategic purpose of the policies are as follows:

- Protect and where possible enhance heritage assets and their setting.

12.3 The Local Plan includes a number of policies relating to the historic environment, and is part of a much greater focus on heritage in recent years. The Council works with partners including the Reading Conservation Area Advisory Committee and Historic England to seek to protect and, where possible, enhance the significant assets that existing within Reading. This includes significant input from the local community.

Indicator 37: Loss of identified heritage assets

Table 12.1: Loss of identified heritage assets in 2023-24

Type of asset	Number in Reading at 31 st March 2024	Lost 2023-24	Loss permitted 2023-24
Listed buildings	517	0	0
Scheduled ancient monuments	2	0	0
Historic parks and gardens	5	0	0
Conservation areas	15	0	0
Buildings of townscape merit in conservation area	787	0	0
Locally listed building or structure	23	0	0

12.4 No identified heritage assets have been lost, or agreed to be lost, in 2023-24.

Indicator 38: Heritage at risk

Table 12.2: Heritage assets at risk, November 2023

Heritage asset at risk	Type	Condition
Castle Hill/Russell Street/Oxford Road Conservation Area	Conservation area	Poor
Chazey Farm Barn, The Warren	Listed building	Very bad
Remains of Reading Abbey	Listed building	Fair

- 12.5 Historic England’s Heritage at Risk Register was published in November 2023⁵. Three heritage assets were listed as ‘at risk’ in Reading, as set out above.
- Russell Street/Castle Hill Conservation Area: the area is now known as Castle Hill/Russell Street/Oxford Road after the adoption of a new conservation area appraisal. Part of the area forms part of the High Streets Heritage Action Zone programme which concluded at the end of the 2023-24 year.
 - Chazey Farm Barn, The Warren: there was ongoing work between the owner, the Council and Historic England on work to prevent further decay during the monitoring year, and these works took place during 2020. Monitoring has continued since the works were carried out, but restoration and a viable use is still required.
 - Remains of Reading Abbey: Most of the ruins have now been addressed, with the main part of the ruins reopening to the public in 2018. However, one remaining part of the ruins, the mill arch, in private ownership, remains in need of consolidation.
- 12.6 No assets were removed from or added to the Heritage at Risk Register in 2023.

Indicator 39: Changes to national heritage designations

- 12.7 There have been no designations or de-designations of listed buildings, scheduled ancient monuments, conservation areas or historic parks and gardens in Reading in 2023-24. There have been some changes to the description of listings in buildings within the High Street Heritage Action Zone, but this has not resulted in any new listings or delistings.

Indicator 40: Changes to the list of locally-important buildings and structures

- 12.8 In May 2021, the Council put a new process in place for designation of locally-listed buildings, which involves nominations for additions to the list being discussed by Planning Applications Committee. Using this process, two buildings and structures have been added to the local list during the monitoring year, as follows:

Table 12.3: Additions to the list of locally-important buildings 2023-24

Reference	Address	Date added
LL25	Reading Bridge	3 September 2023
LL26	The Restoration, 928 Oxford Road	6 December 2023

- 12.9 More information on the list of locally-important buildings can be found on the Council’s website⁶.

⁵ The 2024 version was published in November 2024, and will be reported on next year.

⁶ [Locally listed buildings - Reading Borough Council](#)

Indicator 41: Progress of conservation area appraisals

12.10 Work was undertaken on a revised version of the Christchurch Conservation Area Appraisal during 2023-24 and a draft version was agreed for consultation by a Council committee in March 2024. Consultation took place after the end of the monitoring year.

Conclusion: are policies fulfilling their purpose?

12.11 In terms of the strategic purpose of policies, monitoring this year indicates the following conclusions.

- ***Protect and where possible enhance heritage assets and their setting:***

No loss of designated heritage assets has occurred. Actions are underway to address the assets on the Heritage at Risk register. Two buildings or structures have been added to the local list. Progress has been made on the Christchurch conservation area appraisal.

13. Local Plan Allocations

13.1 Key policies for Local Plan allocations are as follows:

- CR11: Station/River Major Opportunity Area
- CR12: West Side Major Opportunity Area
- CR13: East Side Major Opportunity Area
- CR14: Other Sites for Development in Central Reading
- SR1: Island Road Major Opportunity Area
- SR2: Land North of Manor Farm Road Major Opportunity Area
- SR3: Land South of Island Road Major Opportunity Area
- SR4: Other Sites for Development in South Reading
- WR1: Dee Park
- WR2: Park Lane Primary School, The Laurels and Downing Road
- WR3: Other Sites for Development in West Reading and Tilehurst
- CA1: Sites for Development in Caversham and Emmer Green
- CA2: Caversham Park
- ER1: Sites for Development in East Reading

13.2 The main strategic purpose of policies is as follows:

- Identify sites to help to meet Reading's development needs.

13.3 The Local Plan identifies sites to meet much of Reading's identified development needs. Most of these sites are primarily identified for housing, but there are also other needs, in particular for industry and warehouse uses, for which sites were identified.

Indicator 42: Progress of sites allocated in the Local Plan

13.4 Table 13.1 below provides a brief update of the progress of the allocations in the Reading Borough Local Plan. The information presented is the latest position at 31st March 2024. Please note that there may have been further progress between the end of 2023-24 and publication, which will be reported in the 2024-25 AMR, and the information below does not necessarily therefore reflect the latest position at the time of publication.

Table 13.1: Summary of progress of Local Plan allocated sites

Site	Progress 2023-24	Comments
CR11a: Friar Street & Station Road	Various	<p>Permission 141043 for refurbishment of Thames Tower with four additional storeys for offices completed in 2018.</p> <p>Prior approval 141277 for conversion of Garrard House, 30 Garrard Street to 83 dwellings and permission 160328 for roof extension for 18 dwellings completed in 2018.</p> <p>Permission 181930 for hotel, offices and retail at 29 Station Road granted October 2019, now expired.</p> <p>Prior approvals 200863 and applications 191588 and 201175 for conversion and extension of upper floors of 1 Station Road/22 Friar Street to 14 dwellings approved in 2020 and 2021, completed 2022-23.</p> <p>Application 230202 for change of use of 13-15 Station Road from offices to 7 dwellings submitted February 2023 and undetermined.</p> <p>Application 220933 for redevelopment of 35-39 Friar Street for 103 dwellings and ground floor commercial uses submitted June 2022 and undetermined.</p> <p>No progress on remainder of site.</p>
CR11b: Greyfriars Road Corner	Permission	<p>Permission 162210 for 135 dwellings and A1-A5, B1 and D2 uses at 52-55 Friar Street/1 Greyfriars Road granted March 2018, now expired.</p> <p>Prior approval 200211 for conversion of 30 Greyfriars Road to 43 dwellings approved June 2020, now expired.</p>

Site	Progress 2023-24	Comments
CR11c: Station Hill	Permission	<p>Site covered by outline permissions 190441 and 190442 and REM permissions 190465 and 190466, all granted March 2019, for comprehensive redevelopment for up to 538 dwellings and offices, retail and leisure.</p> <p>Permission 201537 is alternative REM for Plot E for 415 dwellings (uplift of 45) granted permission in July 2021 and completed 2024</p> <p>Permission 201533 is alternative REM for Plot F for 184 dwellings (uplift of 16) granted permission in July 2021 and under construction.</p> <p>Permission 192032 (hybrid full/outline) for northern part of site for mix of uses including residential, hotel, offices, commercial received December 2019 granted July 2021. Full permission for phase 2 (office building) under construction, outline permission for phase 3 awaiting reserved matters,</p> <p>Demolition of most of site completed.</p>
CR11d: Brunel Arcade and Apex Plaza	No progress	N/A
CR11e: North of Station	Various	<p>Outline planning application 182252 for redevelopment of 80 Caversham Road for 620 dwellings, offices, retail, community, health centre submitted December 2018, granted planning permission March 2023, not yet implemented.</p> <p>Outline planning application 200328 for redevelopment of Vastern Court retail park for residential, offices, retail, hotel, community and leisure submitted February 2020, not determined. Appeal against non-determination made January 2022, called in and permitted by Secretary of State March 2024. No reserved matters yet.</p> <p>Remainder of site no progress.</p>
CR11f: West of Caversham Road	Application	<p>Application 221324 for redevelopment of 97a-117 Caversham Road for 60 dwellings permitted September 2023, demolition underway.</p> <p>Remainder of site no progress.</p>

Site	Progress 2023-24	Comments
CR11g: Riverside	Permission	Application 200188 for redevelopment of majority of the site for residential (209 dwellings) and café refused April 2021, allowed on appeal March 2022, not yet implemented. Remainder of site no progress.
CR11h: Napier Road Junction	Completed	Permission 162166 for 315 dwellings granted in November 2017, completed in 2021-22.
CR11i: Napier Court	No progress	N/A
CR12a: Cattle Market	No progress	N/A
CR12b: Great Knollys Street & Weldale Street	Part under construction	Permission 170326 for 427 dwellings at land between Weldale Street and Chatham Street granted March 2018. NMA 191974 for reduction to 422 dwellings granted March 2020, further reduction to 418 dwellings granted December 2022. 253 dwellings completed in 2022-23, remainder under construction. Permission 201420 for 40 dwellings at 45 Caversham Road granted February 2021. Development under construction. Application 191086 for 10 dwellings and office space at Unit 16, North Street permitted June 2023, not yet implemented. No progress on remainder of site.

Site	Progress 2023-24	Comments
CR12c: Chatham Street, Eaton Place and Oxford Road	Various	<p>Permission 150721 for 16 dwellings at 114 Oxford Road granted February 2016, completed 2022.</p> <p>Prior approval 170979 for conversion of 125 Chatham Street to 8 dwellings approved August 2017, now expired. Application 200752 for two additional storeys for 7 flats received June 2020 and withdrawn December 2022.</p> <p>Permission 180365 for conversion of buildings to the rear of the Butler, 85-91 Chatham Street to hotel granted March 2019, now expired.</p> <p>Prior approval 190419 for conversion of Eaton Court, 106-112 Oxford Road to 58 dwellings approved May 2019, now expired. Application 210639 for redevelopment for 131 dwellings and ground floor commercial received April 2021 and undetermined.</p> <p>Application 201104 at 10 Eaton Place for a residential redevelopment of up to 8 storeys, received August 2020 and undetermined.</p> <p>Permission 210349 at 115 Chatham Street for development for 54 dwellings granted December 2021, under construction.</p> <p>No progress on remainder of site.</p>
CR12d: Broad Street Mall	Permission	<p>Permission 182137 for 422 dwellings above the mall granted December 2021, not yet implemented.</p> <p>Permission 182054 for 101-bed hotel at 20 Hosier Street granted November 2019, now expired.</p> <p>Prior approval 211177 for conversion of Fountain House to 48 dwellings granted September 2021, not yet implemented.</p> <p>Minster Quarter Development Framework, which includes this site, adopted 2018.</p>
CR12e: Hosier Street	No progress	<p>Application 240063 for extension to the Hexagon Theatre received January 2024 and resolved to grant permission subject to Section 106.</p> <p>Minster Quarter Development Framework, which includes this site, adopted 2018.</p>
CR13a: Reading Prison	No progress	N/A

Site	Progress 2023-24	Comments
CR13b: Forbury Retail Park	Part under construction	Permission 190509 for 765 dwellings on former Homebase & Toys R Us granted October 2018, under construction with 549 dwellings completed by end of 2023-24. Outline application 230822 at Forbury Retail Park for redevelopment for up to 820 dwellings and 5,500 sq m of commercial use, received June 2023 and undetermined. No progress on remainder of site.
CR13c: Kenavon Drive and Forbury Business Park	No progress	N/A
CR13d: Gas Holder	Permission	Application 190627 for 130 dwellings granted July 2021. Existing gas holder demolished by end of 2021-22.
CR14a: Central Swimming Pool, Battle Street	Permission	Site cleared. Permission 221405 for 49 dwellings, supported living and older persons day centre granted September 2023, not yet implemented.
CR14b: Former Reading Family Centre, North Street	Completed	Permission 191659 for 41 dwellings granted September 2020, reduction to 37 dwellings granted March 2023, completed 2023-24.
CR14c: 17-23 Queen Victoria Street	Alternative development completed	Permission 181296 for alternative development of 19 serviced apartments granted January 2019, completed 2020-21.
CR14d: 173-175 Friar Street and 27-32 Market Place	Permission	Permission 180358 for 35 dwellings, office and retail granted January 2019, now expired. Alternative application 210163 for redevelopment for hotel with 8 flats and class E uses on Market Place received February 2021 and resolved to grant subject to Section 106 agreement. Alternative prior approval 220579 for conversion of 173-174 Friar Street to 20 dwellings granted June 2022 and further alternative prior approval 220577 for conversion of 175 Friar Street to 6 dwellings granted July 2022, not yet implemented. Permission 220545 for 27-32 Market Place for conversion to 8 dwellings at upper floors, demolition and retention of ground floor commercial granted November 2023, not yet implemented.

Site	Progress 2023-24	Comments
CR14e: 3-10 Market Place, Abbey Hall and Abbey Square	Under construction	Prior approval 211261 for conversion of Soane Point, 6-8 Market Place to 93 dwellings approved September 2021. Superseded by alternative prior approval 210478 for conversion to 144 dwellings refused May 2021, allowed on appeal May 2022, under construction. Permission 221446 for extensions to building for an additional 38 dwellings permitted August 2023, under construction.
CR14f: 1-5 King Street	Alternative development completed	Permission 181566 for alternative change of use to offices granted January 2019, completed 2019-20.
CR14g: The Oracle Extension, Bridge Street and Letcombe Street	Alternative application	Application 221917 for alternative development on cinema part of site for mixed use development of up to 247 dwellings, cinema and commercial uses submitted December 2022, not yet determined. Remainder of site no progress.
CR14h: Central Club, London Street	Application	Applications 221364 for development for 17 dwellings and community hall submitted September 2022 has resolution to grant permission subject to S106.
CR14i: Enterprise House, 89-97 London Street	No progress	N/A
CR14j: Corner of Crown Street and Southampton Street	No progress	N/A
CR14k: Corner of Crown Street and Silver Street	Completed	Permission 170794 for 80 dwellings at 3-21 Crown St/27 Silver Street (majority of site) granted October 2017, completed 2020-21. Permission 180417 for 9 dwellings at corner of Newark Street and Crown Street (remainder of site) granted July 2018, completed 2020-21.
CR14l: 187-189 Kings Road	No progress	N/A
CR14m: Caversham Lock Island and Caversham Weir, Thames Side	Part completed	Permission 151715 for hydropower infrastructure at weir granted May 2017, completed 2020-21. Remainder of site no progress.
SR1a: Former Landfill, Island Road	No progress	N/A
SR1b: North of Island Road	Completed	Permission 170444 for 11,067 sq m of industrial and warehouse space completed 2018-19.

Site	Progress 2023-24	Comments
SR1c: Island Road A33 Frontage	No progress	Existing permission for offices 050823 not expected to be built out.
SR2: Land north of Manor Farm Road	No progress	N/A
SR3: Land south of Elgar Road	No progress	N/A
SR4a: Pulleyn Park, Rose Kiln Lane	No progress	N/A
SR4b: Rear of 3-29 Newcastle Road	Application	Application 221585 for demolition of 19 Newcastle Road and 9 dwellings to the rear of 17-29 withdrawn February 2023. Application 230974 for demolition of 19 Newcastle Road and 9 dwellings to the rear of 17-29 has resolution to grant subject to S106.
SR4c: 169-173 Basingstoke Road	No progress	N/A
SR4d: 16-18 Bennet Road	No progress	N/A
SR4e: Part of Former Berkshire Brewery Site	Permission	Permission 192054 for 15,045 sq m of industrial and warehouse space received December 2019 granted April 2021, not yet implemented. Existing unimplemented permission for offices 090530.
SR4f: Land south west of Junction 11 of the M4	No progress	Part of wider Grazeley site for which HIF bid rejected in 2020, and which is no longer to be included in Wokingham and West Berkshire Local Plans, which will mean it cannot be delivered.
WR1: Dee Park	Part completed	Phases 1 and 2 completed. No planning application for Phase 3 yet submitted.
WR2: Park Lane Primary School, The Laurels and Downing Road	No progress	N/A
WR3a: Former Cox and Wyman site, Cardiff Road	Completed	Planning permission 171814 for 96 dwellings granted November 2018. Fully completed in 2022-23.
WR3b: 2 Ross Road and part of Meadow Road	No progress	Buildings on Meadow Road now demolished. Application 200202 for prior notification of demolition of 2 Ross Road received February 2020 and undetermined.
WR3c: 28-30 Richfield Avenue	Alternative development completed	Alternative permission for extension and refurbishment of car dealership has now been completed.

Site	Progress 2023-24	Comments
WR3d: Rivermead Leisure Centre, Richfield Avenue	Completed	Permission 201734 for new leisure centre including new pool granted April 2021, completed 2023-24.
WR3e: Yeomanry House, Castle Hill	Permission for alternative development	Permission 190629 for use of building as day nursery granted May 2022, not yet implemented.
WR3f: 4 Berkeley Avenue	No progress	N/A
WR3g: 211-221 Oxford Road, 10 and rear of 8 Prospect Street	Part completed	Permission 150394 for 6 flats at 10 Prospect Street completed 2017. Permission 152313 for 2 flats to rear of 10 Prospect Street completed 2018. Prior approval 180658 for conversion of building to rear of 223 Oxford Road to 1 dwelling approved June 2018, completed 2020. Prior approval 191782 for conversion of building to rear of 8 Prospect Street to 5 dwellings approved December 2019, completed 2022. Remainder of site no progress.
WR3h: Rear of 303-315 Oxford Road	Application	Application 211626 for 13 dwellings and office building received September 2021 has resolution to grant subject to S106.
WR3i: Part of former Battle Hospital, Oxford Road	Part completed	Permission 180319 for 211 dwellings granted October 2018, fully completed 2022-23. No progress on small remaining part of site.
WR3j: Land at Moulsoford Mews	Permission	Site still has permission for a health centre under original Battle Hospital permission 051348, not expected to be implemented. Alternative permission 201391 for 26 dwellings with ground floor commercial received October 2020 granted June 2021, and unimplemented. Alternative application 211047 for 28 dwellings and ground floor commercial submitted June 2021, withdrawn December 2021. Application 220776 for 26 dwellings with ground floor commercial received May 2022 refused October 2022, allowed on appeal November 2023, and unimplemented.
WR3k: 784-794 Oxford Road	No progress	N/A
WR3l: 816 Oxford Road	Application	Application 220452 for redevelopment for 24 dwellings submitted March 2022, undetermined.

Site	Progress 2023-24	Comments
WR3m: 103 Dee Road	Under construction	Permission 221130 for redevelopment for 54 dwellings granted November 2023 and under construction.
WR3n: Amethyst Lane	Permission	Prior approval 231591 for demolition of existing buildings granted February 2024 and unimplemented. Permission 230613 for development for respite care accommodation and 17 dwellings granted March 2024 and unimplemented.
WR3o: The Meadway Centre, Honey End Lane	Permission	Permission 150945 granted 2017 for development for redevelopment and refurbishment, expired May 2021. Outline application 191496 for partial redevelopment for retail and 258 dwellings received September 2019, resolved to grant subject to Section 106 agreement.
WR3p: Alice Burrows Home, Dwyer Road	Permission	Permission 230612 for development for 30 dwellings granted March 2024 and unimplemented.
WR3q: Norcot Community Centre, Lyndhurst Road	Completed	Permission 181377 for 18 dwellings and community use granted July 2020, completed 2022-23.
WR3r: Charters Car Sales, Oxford Road	No progress	N/A
WR3s: Land at Kentwood Hill	No progress	N/A
WR3t: Land at Armour Hill	No progress	N/A
CA1a: Reading University Boat Club, Thames Promenade	No progress	N/A
CA1b: Part of Reading Golf Course, Kidmore End Road	Under construction	Outline application 210018 for larger site than allocation for residential-led development (257 dwellings) refused August 2021. Appeal submitted February 2022. Outline permission 211843 for alternative residential-led development (223 dwellings) on the same larger site granted March 2022. Reserved matters granted in part November 2022, with application for remainder undetermined. Under construction.
CA1c: Land at Lowfield Road	No progress	Site in use for temporary housing.

Site	Progress 2023-24	Comments
CA1d: Rear of 200-214 Henley Road, 12-24 All Hallows Road, & 4, 7 & 8 Copse Avenue	Part completed	2 houses at 4 Copse Avenue completed under permission 181306. Remainder of site no progress.
CA1e: Rear of 13-14a Hawthorne Road & 282-292 Henley Road	Part completed	4 dwellings completed under permission 161183. Permission 190592 for new dwelling on land to the rear of 292 Henley Road granted August 2021 and unimplemented. Remainder of site no progress.
CA1f: Rear of 1 & 3 Woodcote Road and 21 St Peter's Hill	No progress	N/A
CA1g: Land west of Henley Road Cemetery	Completed	Now part of cemetery
CA2: Caversham Park	Application	Application 220409 for conversion of house to 64 assisted living units, care home, 61 age-restricted dwellings, 33 dwellings and sports provision received March 2022 and undetermined.
ER1a: The Woodley Arms PH, Waldeck Street	Under construction	Permission 171893 for student accommodation granted on appeal in October 2018. Under construction at end of 2023-24.
ER1b: Dingley House, 3-5 Craven Road	No progress	N/A
ER1c: Land rear of 8-26 Redlands Road	No progress	N/A
ER1d: Land adjacent to 40 Redlands Road	No progress	N/A
ER1e: St Patrick's Hall, Northcourt Avenue	No progress	Application 172045 for development of 836 student bedrooms refused in February 2018, and appeal dismissed May 2019.
ER1f: Hamilton Centre, Bulmershe Road	Alternative development completed	Alternative development for Special Educational Needs college (191634) completed during 2021-22

Site	Progress 2023-24	Comments
ER1g: Alexander House, Kings Road	Permission	Permission 162057 for 56 dwellings granted in May 2017, now expired. Application 190160 for student accommodation refused July 2019, and appeal dismissed November 2020. Prior approval 201536 for conversion to 22 dwellings granted June 2021, under construction. Additional prior approval 210906 for 13 dwellings granted on appeal November 2022, under construction. Permission 210902 for additional storey for 8 dwellings granted November 2022, under construction.
ER1h: Arthur Hill Swimming Pool, 221-225 Kings Road	Completed	Permission 201135 for part conversion part redevelopment for 15 dwellings granted May 2021, completed 2023-24.
ER1i: 261-275 London Road	No progress	N/A
ER1j: Palmer Park Stadium area	Completed	Palmer Park Development Framework to supplement ER1j adopted April 2020. Permission 201735 for leisure centre extension to include new swimming pool granted April 2021, completed 2022-23.
ER1k: 131 Wokingham Road	No progress	N/A

13.5 There has been substantial progress on some sites, with a number of major allocations already under construction or completed. However, there remain a number of sites where there has so far been no progress, perhaps not surprisingly five years into a long term plan.

13.6 In total, 724 homes were delivered on Local Plan allocated sites in 2023-24, which represents 71% of all completed homes. The most significant exception is at Green Park Village, the permission for which preceded the Local Plan.

Conclusion: Are policies fulfilling their purpose?

13.7 In terms of the strategic purpose of policies, monitoring this year indicates the following conclusions.

- ***Identify sites to help to meet Reading's development needs:***

The picture is mixed from site to site, but many sites have progressed in 2023-24, with construction getting underway this year on a number of sites. The majority of new completed dwellings this year were on sites allocated in the Local Plan.

14. Minerals

14.1 The key policies relating to minerals are as follows (all from the Central and Eastern Berkshire Joint Minerals and Waste Plan):

- Sustainable Development
- DM2: Climate Change – Mitigation and Adaptation
- DM3: Protection of Habitats and Species
- DM4: Protection of Designated Landscape
- DM5: Protection of the Countryside
- DM6: Green Belt
- DM7: Conserving the Historic Environment
- DM8: Restoration of Minerals and Waste Developments
- DM9: Protecting Health, Safety and Amenity
- DM10: Flood Risk
- DM11: Water Resources
- DM12: Sustainable Transport Movements
- DM13: High Quality Design of Minerals and Waste Development
- DM14: Ancillary Development
- DM15: Site History
- M1: Sustainable Minerals Development Strategy
- M2: Safeguarding Sand and Gravel Resources
- M3: Sand and Gravel Supply
- M4: Locations for Sand and Gravel Extraction
- M5: Supply of Recycled and Secondary Aggregates
- M6: Chalk and Clay
- M7: Aggregate Wharves and Rail Depots
- M8: Safeguarding Minerals Infrastructure

14.2 The Council, together with four other unitary authorities in Berkshire (Wokingham, Bracknell Forest, Windsor and Maidenhead and Slough Boroughs) has historically produced separate reports for aggregates monitoring in Berkshire (Local Aggregate Assessments). This has now been taken over by Hampshire County Council on behalf of Reading, Wokingham, Bracknell Forest and Windsor and Maidenhead. For reasons of commercial confidentiality, these are not generally disaggregated to individual unitary authorities, as there may only be one operator producing aggregates in a particular authority. The latest Local Aggregate Assessment covers the data up to and including 2022. As Reading Borough has no active extraction facilities, no primary aggregates were won in Reading in 2023-24.

15. Waste

15.1 The key policies relating to minerals are as follows (all from the Central and Eastern Berkshire Joint Minerals and Waste Plan):

- DM1: Sustainable Development
- DM2: Climate Change – Mitigation and Adaptation
- DM3: Protection of Habitats and Species
- DM4: Protection of Designated Landscape
- DM5: Protection of the Countryside
- DM6: Green Belt
- DM7: Conserving the Historic Environment
- DM8: Restoration of Minerals and Waste Developments
- DM9: Protecting Health, Safety and Amenity
- DM10: Flood Risk
- DM11: Water Resources
- DM12: Sustainable Transport Movements
- DM13: High Quality Design of Minerals and Waste Development
- DM14: Ancillary Development
- DM15: Site History
- W1: Sustainable Waste Development Strategy
- W2: Safeguarding of Waste Management Facilities
- W3: Waste Capacity Requirements
- W4: Locations and Sites for Waste Management
- W5: Reworking Landfills

15.2 The main strategic purpose of the policies are as follows:

- Ensure adequate capacity to manage waste arising; and
- Minimise the production of waste and manage it by more sustainable means further up the waste hierarchy.

Indicator 43: Capacity of new waste management facilities by type

15.3 No new waste management facilities have been permitted.

Indicator 44: Amount of Household Waste arising and managed by management type and the percentage each management type represents of the waste managed

Table 15.1: Household waste management and disposal in Reading 2023-24

Measure	Sent for reuse, recycling and composting	Sent for energy recovery	Sent to landfill	Sent to other disposal routes	Total collected
Amount of waste (tonnes)	27,521.85	25,773.26	1,519.46	483.41	55,297.98
Proportion of waste managed (percentage)	49.8%	46.6%	2.7%	0.9%	100.0%

- 15.4 The overall amount of household waste collected is a slight increase on the previous year. The proportion of waste sent for reuse, recycling or composting is almost identical to the previous year, whilst the proportion sent to energy recovery has slightly increased. There has also been a very slight increase in the percentage sent to landfill, albeit the amount is very low, with the longer-term trend being a reduction of landfill. The percentage sent to other disposal routes is reduced from last year. The 'other' column is calculated as the difference between the total household waste and all the other figures, and includes waste sent indirectly to energy recovery and landfill.

16. AWE Burghfield

- 16.1 The key policy for development in the vicinity of the Atomic Weapons Establishment (AWE) Burghfield is OU2: Hazardous Installations.
- 16.2 AWE Burghfield is located in neighbouring West Berkshire District. In 2020, changes to legislation meant that the Detailed Emergency Planning Zone (DEPZ) for AWE Burghfield was significantly extended, and for the first time covered some areas within Reading Borough. The affected areas are broadly west of the A33 and south of the Kennet and Avon Canal and Reading to Newbury railway line. More information on the DEPZ, including a map, is available on West Berkshire District Council's website⁷.
- 16.3 The core concern is that new development within the DEPZ must be capable of being accommodated within the Off-Site Emergency Plan, for which West Berkshire District Council is responsible. This means that it is important to monitor the levels of development that are taking place in the DEPZ to understand implications for the plan.

Indicator 45: Development within the Detailed Emergency Planning Zone of AWE Burghfield

Table 16.1: Planned and completed development within the DEPZ of AWE Burghfield

Status	Dwellings (net change)	Bedspaces in other forms of residential (net change)	Non-residential floorspace (net change, sq m)
Newly permitted 2023-24	0	0	0
Permitted and not started at 31/03/2024	619	0	143,309
Underway at 31/03/2024	302	0	0
Completed during 2023-24	179	0	562

- 16.4 In terms of residential development, there are two large permissions within the DEPZ, both of which pre-date its extension. Green Park Village is currently under construction, and all 179 completed dwellings in 2023-24 were on this site, as are all dwellings under construction at the end of the year. The other site, Royal Elm Park adjacent to the Madejski Stadium, is not started. There are no permissions in the area for additional bedspaces for other forms of accommodation such as residential care or student accommodation.
- 16.5 In terms of non-residential floorspace, completions this year have been small scale and relate to supporting uses at Green Park Village. Considerable amounts of permitted non-residential floorspace are outstanding, in particular for office, hotel and leisure. Most of these permissions were in place prior to the extension to the DEPZ,

⁷ [West Berkshire Council - Atomic Weapons Establishment \(AWE\) - Information](#)

with the exception being an industrial development which is on a site which previously had permission for a large office development.

Appendix I: Planning policies as at 31st March 2023

Cross-cutting policies

- CC1: Presumption in Favour of Sustainable Development
- CC2: Sustainable Design and Construction
- CC3: Adaptation to Climate Change
- CC4: Decentralised Energy
- CC5: Waste Minimisation and Storage
- CC6: Accessibility and the Intensity of Development
- CC7: Design and the Public Realm
- CC8: Safeguarding Amenity
- CC9: Securing Infrastructure

Built and natural environment

- EN1: Protection and Enhancement of the Historic Environment
- EN2: Areas of Archaeological Significance
- EN3: Enhancement of Conservation Areas
- EN4: Locally Important Heritage Assets
- EN5: Protection of Significant Views with Heritage Interest
- EN6: New Development in a Historic Context
- EN7: Local Green Space and Public Open Space
- EN8: Undesignated Open Space
- EN9: Provision of Open Space
- EN10: Access to Open Space
- EN11: Waterspaces
- EN12: Biodiversity and the Green Network
- EN13: Major Landscape Features and Areas of Outstanding Natural Beauty
- EN14: Trees, Hedges and Woodland
- EN15: Air Quality
- EN16: Pollution and Water Resources
- EN17: Noise Generating Equipment
- EN18: Flooding and Drainage
- NRM6: Thames Basin Heaths Special Protection Area (SEP)

Employment

- EM1: Provision of Employment

- EM2: Location of New Employment Development
- EM3: Loss of Employment Land
- EM4: Maintaining a Variety of Premises

Housing

- H1: Provision of Housing
- H2: Density and Mix
- H3: Affordable Housing
- H4: Build to Rent Schemes
- H5: Standards for New Housing
- H6: Accommodation for Vulnerable People
- H7: Protecting the Existing Housing Stock
- H8: Residential Conversions
- H9: House Extensions and Ancillary Accommodation
- H10: Private and Communal Outdoor Space
- H11: Development of Private Residential Gardens
- H12: Student Accommodation
- H13: Provision for Gypsies and Travellers
- H14: Suburban Renewal and Regeneration

Transport

- TR1: Achieving the Transport Strategy
- TR2: Major Transport Projects
- TR3: Access, Traffic and Highway-Related Matters
- TR4: Cycle Routes and Facilities
- TR5: Car and Cycle Parking and Electric Vehicle Charging

Retail, leisure and culture

- RL1: Network and Hierarchy of Centres
- RL2: Scale and Location of Retail, Leisure and Culture Development
- RL3: Vitality and Viability of Smaller Centres
- RL4: Betting Shops and Payday Loan Companies
- RL5: Impact of Main Town Centre Uses
- RL6: Protection of Leisure Facilities and Public Houses

Other uses

- OU1: New and Existing Community Facilities

- OU2: Hazardous Installations
- OU3: Telecommunications Development
- OU4: Advertisements
- OU5: Shopfronts and Cash Machines

Minerals and waste development

- DM1: Sustainable Development (CEBJMWP)
- DM2: Climate Change – Mitigation and Adaptation (CEBJMWP)
- DM3: Protection of Habitats and Species (CEBJMWP)

Appendix II: Five Year Housing Land Supply

This Appendix contains the full versions of the Five Year Housing Land Supply, including the specific sites, for both versions of the calculation, i.e. the calculation excluding non-C3 residential (Indicator 11) and including non-C3 residential (Indicator 12). Tables All.1 to All.7 deal with the figures excluding non-C3 residential, whilst tables All.8 to All.14 deal with the figures including non-C3 residential.

Table All.1: Summary of five year housing land supply including C3 dwellings only

Element of supply calculation	Dwellings
Total requirement based on Local Plan 2013-2036 (policy H1)	15,847
Net Completions 2013-2023	6,741
Net Completions 2023-2024	1,021
Residual requirement 2024-2036	8,085
Annual requirement for remaining 12 years, i.e. 8,085/12	674
Annual requirement for remaining 12 years with 5% buffer (NPPF para 74)	707
Total requirement for 5 years 2024/25-2028/29, i.e. 707 x 5	3,537
Hard commitments (strategic sites, i.e. 10 dwellings+) to be delivered 2024-2029	3,589
Soft commitments (strategic sites) subject to S106 to be delivered 2024-2029	225
Local Plan allocations to be delivered 2024-2029	0
Allowance for small site windfalls at 90 per annum	450
Total site-specific supply for 5 years 2024/25-2028/29	4,264

Table All.2: Elements of supply by year including C3 dwellings only

Type of supply	2024/ 25	2025/ 26	2026/ 27	2027/ 28	2028/ 29	Total
Annual supply for strategic sites (10 dwellings +) (including lapse rates)	772	689	452	779	1,123	3,814
Annual supply for small sites at 90 per annum	90	90	90	90	90	450
Total annual supply (strategic sites + small sites)	862	779	542	869	1,213	4,264

Table All.3: Strategic sites with permission and under construction (including C3 dwellings only)

Appendix IV: Local plan monitoring indicators

The following table lists the monitoring indicators in section 11 of the Local Plan (adopted 2019) and sets out the most recent figure, which is generally for 2023-24 unless otherwise stated. As the Local Plan was adopted relatively recently, a failure to meet targets in 2023-24 or in previous years does not necessarily therefore represent a failure of the plan itself. The need for review of relevant policies taking account of monitoring data is considered further in the Local Plan Review of March 2023.

Table AIV.1: Progress against Local Plan monitoring indicators

Indicator	Relevant policies	Target	Target date	Most recent figure	Total for plan period so far (2013-2024)	Compared to target	Comments
Carbon footprint of Reading Borough	General, CR2	Reduce by 34% compared to 2005 levels	2020	Reduced by 49% compared to 2005 levels (2019 figures, BEIS)	N/A	Met	Targets have been superseded by Climate Emergency Strategy, see reporting elsewhere.
Sustainability requirements attached to major planning applications approved	CR2, H5	Requirements for all majors	Annual	77%	65%	Met	See section 5
Contributions towards infrastructure through Section 106 agreements - receipts	CC9	No specific target - maximise	N/A	£2,453,497.65	No total available	N/A	See Infrastructure Funding Statement
Contributions towards infrastructure through Section 106 agreements - expenditure	CC9	No specific target - maximise	N/A	£4,131,887.65	No total available	N/A	See Infrastructure Funding Statement
Community Infrastructure Levy receipts	CC9	No specific target - maximise	N/A	£1,739,688.23	£39,703,874.62	N/A	See Infrastructure Funding Statement

Indicator	Relevant policies	Target	Target date	Most recent figure	Total for plan period so far (2013-2024)	Compared to target	Comments
Community Infrastructure Levy expenditure	CC9	No specific target - maximise	N/A	£7,554,997.05	£30,810,720.86	N/A	See Infrastructure Funding Statement
Amount of public recreational open space	EN7 - EN9	No net loss	By 2036	Net change: +0.28 ha of unrestricted open space +0.13 ha of PROS -4.27 ha of limited open space	-0.73 of unrestricted open space	Behind (for unrestricted open space)	See section 11
Loss of open space to development	EN7, EN8	None	Annual	See above	See above	See above	See section 11
New public open space brought into use through development	EN9	Net gain	By 2036	See above	See above	See above	See section 11
Number of Local Wildlife Sites in positive conservation management	EN12	80%	Annual	60% (2024)	N/A	Not met	See section 11
Area of Biodiversity Action Plan habitat	EN12	No net loss	Annual	370.9 ha (2022)	N/A	On track	See section 11
Residential development in major landscape features (net change)	EN13	None	Annual	1	2	Not met	See section 11

Indicator	Relevant policies	Target	Target date	Most recent figure	Total for plan period so far (2013-2024)	Compared to target	Comments
Non-residential floorspace in major landscape features (net change, sq m)	EN13	None	Annual	-1,970 sq m	-2,168 sq m	Met	See section 11
Air quality targets in the UK air quality strategy	EN15	Various	2023	See information on Air Quality in England website	N/A	N/A	Reading Borough Council - Air Quality monitoring service (airqualityengland.co.uk)
Residential development on sites wholly or partly in Flood Zones 2 and 3 (net change)	EN17	Maximum 4,000 dwellings	By 2036	464	2,885	Behind	See section 11, particularly paragraph 11.11
Non-residential development on sites wholly or partly in Flood Zones 2 and 3 (net change, sq m)	EN17	Maximum 250,000 sq m	By 2036	-4,839 sq m	32,712 sq m	On track	See section 11, particularly paragraph 11.11
Office floorspace completed (net change)	EM1	53,000 – 112,000 sq m	By 2036	-2,589 sq m	-83,658 sq m	Behind	See section 7
Industrial and warehouse floorspace completed (net change)	EM1	148,000 sq m	By 2036	-3,878 sq m	11,525 sq m	Behind	See section 7
Proportion of office floorspace completed which is in the centre or A33 corridor	EM2	90%	Annual	0%	96%	Not met	See section 7
Proportion of industrial/warehouse floorspace completed which	EM2	80%	Annual	100%	91%	Met	See section 7

Indicator	Relevant policies	Target	Target date	Most recent figure	Total for plan period so far (2013-2024)	Compared to target	Comments
is in the A33 corridor or Core Employment Areas							
Net change of employment land within Core Employment Areas	EM3	No net loss	Annual	-943 sq m	18,511 sq m	Not met	See section 7
Net change in small business units (less than 150 sq m)	EM4	No net loss	Annual	-4	-7	Not met	See section 7
Net change in storage & distribution floorspace in south of Basingstoke Road	EM4	No net loss	Annual	0 sq m	-7,682 sq m	Met	See section 7
Five-year housing land supply measured against targets in H1	H1	More than 5 years supply plus buffer ¹⁰	Annual	6.11 years	N/A	Met	See section 8
Amount of new housing delivered (net change)	H1	689	Annual	1,021	7,762	Met	See section 8
Amount of new affordable housing delivered on sites of 10 or more dwellings	H3	30% secured in new permissions	Annual	122 dwellings + £0.20 million secured. Equates to 9.1% ¹¹	1,445 dwellings + £2.36 million secured. Equates to 18.0%	Not met	See section 8 for methodology

¹⁰ The buffer is generally 5%, unless over the plan period a track record of under-delivery is established, in which case the buffer rises to 20%

¹¹ To calculate an equivalent proportion, the total units secured through a S106 signed in the monitoring year is added to the financial contribution converted to units on the basis that delivering an affordable unit is estimated to cost £100,000 as calculated in evidence for the Local Plan examination. This is compared to the total number of units granted within developments that in policy terms should generate an affordable housing requirement.

Indicator	Relevant policies	Target	Target date	Most recent figure	Total for plan period so far (2013-2024)	Compared to target	Comments
Amount of new affordable housing delivered on sites of 5-9 dwellings	H3	20% contribution secured in new permissions	Annual	£132,250 secured. Equates to 3.8%	24 dwellings + £2.72 million secured. Equates to 11.1%	Not met	See section 8 for methodology
Amount of new affordable housing delivered on sites of 1-4 dwellings	H3	10% contribution secured in new permissions	Annual	1 dwelling and £399,206.65 secured. Equates to 10.6%	20 dwellings + £5.38 million secured. Equates to 11.8%	Met	See section 8 for methodology
New-build dwellings delivered by size and type	H2	At least 50% 3-bed or more outside centre	Annual	24% of 3-bed or more	34% of 3-bed or more	Not met	See section 8
Percentage of new dwellings on previously-developed land	General	90%	Annual	82%	87%	Not met	See section 8
Proportion of student accommodation delivered on non-FHE sites	H12	None	Annual	N/A (no student bedspaces delivered in 2023-24)	98%	Met	All bedspaces delivered so far were permitted before Local Plan adoption.
Net additional gypsy and traveller pitches	H13	Not set	By 2036	0	0	N/A	See section 8

Indicator	Relevant policies	Target	Target date	Most recent figure	Total for plan period so far (2013-2024)	Compared to target	Comments
Dwellings delivered through office to residential prior approvals ¹²	General	Dwellings delivered - no target	N/A	22	1,323	N/A	See Section 8
Dwellings delivered through Class E to residential prior approvals	General	Dwellings delivered - no target	N/A	12	33	N/A	See Section 8
Offices lost through office to residential prior approvals	General	Floorspace lost - no target	N/A	-1,398 sq m	-65,618 sq m	N/A	See Section 8
Floorspace lost through Class E to residential prior approvals	General	Floorspace lost - no target	N/A	-533 sq m	-1,720 sq m	N/A	See Section 8
Delivery of identified transport projects in policy TR2	TR2	Various – see Local Transport Plan	See Local Transport Plan	N/A	N/A	N/A	See Section 10
Retail, leisure and culture floorspace delivered	RL2	Up to 34,900 sq m	By 2036	-2,082 sq m	-35,902 sq m	Behind	See section 9
Proportion of retail, leisure and culture floorspace delivered that is in a designated centre	RL1	80%	Annual	51%	64%	Not met	See section 9
Retail vacancy within all designated centres	RL1	Less than 10%	Biannual	13.5% (2023)	N/A	Not met	See section 9
Retail vacancy within Reading centre	RL1	Less than 10%	Biannual	17.3% (2023)	N/A	Not met	See section 9

¹² Now replaced by commercial (Class E) to residential prior approvals, of which the first were delivered in 2022-23. These two different types of permitted development will both be reported in this table.

Indicator	Relevant policies	Target	Target date	Most recent figure	Total for plan period so far (2013-2024)	Compared to target	Comments
Retail vacancy within Basingstoke Road North local centre	RL1	Less than 10%	Biannual	0.0% (2023)	N/A	Met	See section 9
Retail vacancy within Caversham district centre	RL1	Less than 10%	Biannual	9.4% (2023)	N/A	Met	See section 9
Retail vacancy within Cemetery Junction district centre	RL1	Less than 10%	Biannual	8.9% (2023)	N/A	Met	See section 9
Retail vacancy within Christchurch Road local centre	RL1	Less than 10%	Biannual	14.3% (2023)	N/A	Not met	See section 9
Retail vacancy within Coronation Square local centre	RL1	Less than 10%	Biannual	27.3% (2023)	N/A	Not met	See section 9
Retail vacancy within Dee Park local centre	RL1	Less than 10%	Biannual	0.0% (2023)	N/A	Met	See section 9
Retail vacancy within Emmer Green district centre	RL1	Less than 10%	Biannual	4.8% (2023)	N/A	Met	See section 9
Retail vacancy within Erleigh Road local centre	RL1	Less than 10%	Biannual	0.0% (2023)	N/A	Met	See section 9
Retail vacancy within the Meadway district centre	RL1	Less than 10%	Biannual	29.6% (2023)	N/A	Not met	See section 9
Retail vacancy within Northumberland Avenue North local centre	RL1	Less than 10%	Biannual	25.0% (2023)	N/A	Not met	See section 9

Indicator	Relevant policies	Target	Target date	Most recent figure	Total for plan period so far (2013-2024)	Compared to target	Comments
Retail vacancy within Oxford Road West district centre	RL1	Less than 10%	Biannual	9.4% (2023)	N/A	Met	See section 9
Retail vacancy within Shinfield Road district centre	RL1	Less than 10%	Biannual	0.0% (2023)	N/A	Met	See section 9
Retail vacancy within Tilehurst Triangle district centre	RL1	Less than 10%	Biannual	5.8% (2023)	N/A	Met	See section 9
Retail vacancy within Wensley Road local centre	RL1	Less than 10%	Biannual	0.0% (2023)	N/A	Met	See section 9
Retail vacancy within Whitley district centre	RL1	Less than 10%	Biannual	6.9% (2023)	N/A	Met	See section 9
Retail vacancy within Whitley Street major local centre	RL1	Less than 10%	Biannual	10.5% (2023)	N/A	Not met	See section 9
Retail vacancy within Whitley Wood local centre	RL1	Less than 10%	Biannual	0.0% (2023)	N/A	Met	See section 9
Retail vacancy within Wokingham Road major local centre	RL1	Less than 10%	Biannual	4.0% (2023)	N/A	Met	See section 9
Proportion of key frontage in Basingstoke Road North local centre in A1 or A2 use	RL3	50%	Annual	No longer monitored	N/A	N/A	See section 9

Proportion of key frontage in Wokingham Road major local centre in A1 or A2 use	RL3	50%	Annual	No longer monitored	N/A	N/A	See section 9
Floorspace for community facilities (use class D1 or F1) delivered	OU1	Net increase	Annual	5,814 sq m	29,777 sq m	Met	No comments

Indicator	Relevant policies	Target	Target date	Most recent figure	Total for plan period so far (2013-2024)	Compared to target	Comments
Dwellings completed within the AWE Burghfield DEPZ	OU2	No target	N/A	179	496 ¹³	N/A	See section 16
Non-residential floorspace completed within the AWE Burghfield DEPZ (net change)	OU2	No target	N/A	562 sq m	29,345 sq m	N/A	See section 16
Dwellings completed within the AWE Burghfield middle consultation zone ¹⁴	OU2	No target	N/A	179	875	N/A	The Consultation Zone approach to AWE has been superseded, but this indicator is still useful as a general measure.
Non-residential floorspace completed within the AWE Burghfield middle consultation zone (net change)	OU2	No target	N/A	562 sq m	25,496 sq m	N/A	See above
Dwellings completed within the AWE Burghfield outer consultation zone	OU2	No target	N/A	4	1,107	N/A	See above
Non-residential floorspace completed within the AWE Burghfield outer consultation zone (net change)	OU2	No target	N/A	189 sq m	69,249 sq m	N/A	See above

¹³ The DEPZ was extended in 2020, meaning that this is the cumulative figure since 2020.

¹⁴ The newly defined DEPZ includes the whole middle consultation zone.

Indicator	Relevant policies	Target	Target date	Most recent figure	Total for plan period so far (2013-2024)	Compared to target	Comments
Dwellings completed in Central Reading (net change)	CR11, CR12, CR13, CR14	7,600 (approx.)	By 2036	747	3,710	On track	Target is for general monitoring not policy targets
Office floorspace completed in Central Reading (net change)	CR11, CR12, CR13, CR14	71,000 sq m (approx.)	By 2036	-1,300 sq m	-71,538 sq m	Behind	Target is for general monitoring not policy targets
Retail and leisure floorspace completed in Central Reading (net change)	CR11, CR12, CR13, CR14	Up to 27,000 sq m (approx.)	By 2036	596 sq m	-37,383 sq m	Behind	Target is for general monitoring not policy targets
Dwellings completed in South Reading (net change)	SR2, SR3, SR4	3,700 (approx.)	By 2036	184	1,955	On track	Target is for general monitoring not policy targets
Industrial and warehouse floorspace completed in South Reading (net change)	SR1, SR4	155,000 sq m (approx.)	By 2036	0 sq m	21,536 sq m	Behind	Target is for general monitoring not policy targets
Dwellings completed in West Reading and Tilehurst (net change)	WR1, WR2, WR3	2,400 (approx.)	By 2036	45	1,429	On track	Target is for general monitoring not policy targets
Dwellings completed in Caversham and Emmer Green (net change)	CA1, CA2	700 (approx.)	By 2036	27	160	Behind	Target is for general monitoring not policy targets
Dwellings completed in East Reading (net change)	ER1	1,100 (approx.)	By 2036	18	511	On track	Target is for general monitoring not policy targets

Where indicators are judged against a running total, they are considered to be ‘behind’ if they are more than 10% behind the annual average required to meet the total by 2036. Please note that being behind or ahead of these annual averages does not necessarily mean that there should be any concerns about meeting the overall 2036 target, as delivery will differ from year to year. For instance, the overall homes to be delivered in one part of Reading may be dependent on one or two sites which are not expected to be delivered until later in the plan process. Delivery against these indicators will ultimately need to be judged in 2036.
