NON-RESIDENTIAL PLANNING COMMITMENTS AT 31 MARCH 2025

**Information on the progress of non-residential development
between 1 April 2024 and 31 March 2025 in Reading Borough**

Published June 2025

SUMMARY VERSION

EXECUTIVE SUMMARY

This publication looks at commitments for non-residential development in Reading Borough at 31 March 2025. It deals with change in the amount of floorspace, based on planning records. It includes those sites that have planning permission (hard commitments) and those that have been identified in principle as being suitable for development (soft commitments).

The key net figures for Reading Borough for the monitoring year 1 April 2024 to 31 March 2025 using the use classes introduced in September 2020 are summarised in square metres below:

Summary of figures for 2024-25 (use classes as of September 2020)

| Use class | Newly permitted | With permission but not started | Under construction | Total hard commitments outstanding (N/S + U/C) | Soft commitments | Total hard and soft | Completed | Lapsed |
|-----------|-----------------|---------------------------------|--------------------|--|------------------|---------------------|-----------|--------|
| B2 | 0 | 18,441 | 1,281 | 19,722 | -1,448 | 18,274 | 229 | 0 |
| B8 | 1,170 | 8,344 | 0 | 8,344 | 77,070 | 85,414 | -616 | 0 |
| C1 | 0 | 63,825 | 4,587 | 68,412 | 1,275 | 69,687 | -368 | -676 |
| C2 | -467 | 42,594 | 0 | 42,594 | 10,575 | 53,169 | -1,343 | 0 |
| E | -22,401 | 210,102 | -31,281 | 178,821 | -1,365 | 177,456 | 21,927 | -8,238 |
| F1 | 629 | 4,628 | 1,958 | 6,586 | 1,100 | 7,686 | 11,685 | 116 |
| F2 | -529 | 53,942 | 48 | 53,990 | -326 | 53,664 | 637 | 0 |
| SG | 3,811 | 38,588 | 5,410 | 43,998 | -88,035 | -44,037 | 15,933 | -149 |

In terms of new completions, the largest changes are a net gain in commercial (E) due mainly to the completion of the new office building at Station Hill, a gain of learning and non-residential institutions (F1) after completion of a new secondary school at Richfield Avenue and a gain of sui generis uses from a number of smaller developments and changes of use.

In terms of development under construction, this is currently modest other than a net loss of commercial floorspace as a result of both conversions to residential and demolition prior to redevelopment for employment uses.

Outstanding permissions continue to show a vast amount of office floorspace with unimplemented permission, albeit this is partly countered by a number of prior approvals for loss of offices to residential. Many of the older office proposals have been outstanding for some years, and there is a question mark over whether they will ever be implemented. There are also large volumes of hotel, local community and sui generis uses outstanding. In terms of new permissions this year, there is a significant net loss of commercial due mainly to there being a number of new prior approvals for conversion to residential this year.

‘Soft commitments’ are those where there is not yet a formal planning permission in place, generally those where there has either been a resolution to grant planning permission subject to signing a Section 106 agreement, or which are identified in the Local Plan. In particular, it leads to a significant growth in employment space, particularly B8 on an allocation at Island Road. There is a significant loss of sui generis uses, mainly through redevelopment to residential.

In terms of how these figures fit into the longer-term picture, trends are always difficult to identify in the annual commitments exercise, as figures can be hugely swayed by single developments. The clearest trends over the last decade or so are for loss of offices (often due to conversion to residential) and retail (with losses for other town centre uses as well as demolition to facilitate redevelopment). This year’s figures buck this trend by showing a net

gain in offices due to the Station Hill completion. In the long term there has been a gain of storage and distribution floorspace, but this has reversed over the last few years and this year's small net loss is in line with that reversal.

The use classes order was changed on 1st September 2020, new use classes E, F1 and F2 being introduced and a number of previous use classes being consolidated or removed. Since a large proportion of permissions monitored this year were granted before this change, it is also worth presenting the figures using the previous use classes. The key net figures for Reading Borough for the monitoring year 1 April 2024 to 31 March 2025 using the use classes existing prior to September 2020 are therefore summarised in square metres below:

Summary of figures for 2024-25 (use classes prior to September 2020)

| Use class | Newly permitted | With permission but not started | Under construction | Total hard commitments outstanding (N/S + U/C) | Soft commitments | Total hard and soft | Completed | Lapsed |
|-----------|-----------------|---------------------------------|--------------------|--|------------------|---------------------|-----------|--------|
| A1 | -544 | 1,090 | -2,082 | -992 | -911 | -1,903 | -623 | 1,328 |
| A2 | -1,553 | -1,851 | 0 | -1,851 | -446 | -2,297 | -334 | 0 |
| A3 | 275 | 284 | -296 | -12 | -488 | -500 | 1,631 | 0 |
| A4 | 0 | -147 | 0 | -147 | 0 | -147 | -333 | 0 |
| A5 | 0 | 81 | 0 | 81 | 0 | 81 | 180 | 0 |
| B1 | -23,453 | 211,262 | -29,058 | 182,204 | -2,641 | 179,563 | 21,454 | -9,566 |
| B2 | 0 | 18,441 | 130 | 18,571 | 1,768 | 20,339 | 229 | 0 |
| B8 | 1,170 | 8,344 | 0 | 8,344 | 77,070 | 85,414 | -616 | 0 |
| C1 | 0 | 63,825 | 4,587 | 68,412 | 1,275 | 69,687 | -368 | -676 |
| C2 | -467 | 42,594 | 0 | 42,594 | 10,575 | 53,169 | -1,343 | 0 |
| D1 | 820 | 5,936 | 1,280 | 7,216 | -2,091 | 5,125 | 11,668 | 116 |
| D2 | 1,817 | 51,129 | 2,032 | 53,161 | -471 | 52,690 | 454 | 0 |
| SG | 3,811 | 39,138 | 5,410 | 44,548 | -84,794 | -40,246 | 16,086 | -149 |

This is a summary version of the Commitments document, which excludes the schedules of individual sites. For a full version of the document including the individual schedules, please contact the [Planning Policy Team](#).

1. INTRODUCTION AND BACKGROUND

- 1.1 This document summarises the results of the 2025 survey of Non-Residential Planning Commitments in Reading Borough. Its purpose is to monitor change in the amount of floorspace in various non-residential uses.
- 1.2 The changes in floorspace are monitored through the planning process. This document shows the overall change in amount of floorspace in terms of what has planning permission at 31 March 2025, and what has been completed during the monitoring year (1 April 2024 to 31 March 2025).
- 1.3 Surveys of employment commitments have been produced annually for the Berkshire area for decades. Up until 2010 this information was collected and published for Reading by the Berkshire Unitary Authorities' Joint Strategic Planning Unit (JSPU). However, the responsibility for monitoring of commitments was transferred to Reading Borough Council early in 2011.
- 1.4 The notes in the sections 1 to 3 of this report explain the background to the non-residential commitments, the methodology involved in carrying out the survey and how to use the schedules.
- 1.5 Section 4 contains the summary tables. These provide the following:
 - Amount of floorspace (net) with planning permission that had not been started at 31 March 2025;
 - Amount of floorspace (net) that was under construction at 31 March 2025;
 - Amount of floorspace (net) with permission that was outstanding at 31 March 2025 (i.e. the total of floorspace not started and under construction);
 - Amount of floorspace (net) without planning permission but agreed in principle at 31 March 2025 ('soft commitments');
 - Amount of floorspace (net) that has been completed between 1 April 2024 and 31 March 2025;
 - Amount of floorspace (net) newly permitted between 1 April 2024 and 31 March 2025; and
 - Amount of floorspace (net) for which planning permission had lapsed at 31 March 2025.
- 1.6 Two sets of summary tables are presented. The first set uses the use classes in operation at up to September 2020, whilst the second set uses the new use classes introduced in September 2020.
- 1.7 Section 5 looks at how the figures from this year's commitments survey compare to those from previous years.
- 1.8 This document has been produced alongside the Residential Planning Commitments at 31 March 2025 document.

- 1.9 For any queries, including requesting a full version of this document containing the individual schedules, please contact Planning Policy, Planning Section, Reading Borough Council on 0118 9373337 or [by e-mail](#).

2. METHODOLOGY

- 2.1 The non-residential commitments surveys (previously called Employment Commitments) are updated and published each year, covering the monitoring year 1 April to 31 March. The 2024 survey has been updated to 2025 in four stages:
1. Outstanding commitments at March 2024 were identified from the [2024 survey](#).
 2. Relevant planning permissions granted between 1 April 2024 and 31 March 2025 were identified from the Council's planning application records. Individual planning application forms, decision notices and plans were examined where necessary. In cases where more than one alternative permission relates to the same site, the floorspace applicable to the most recent permission is counted as it is assumed that this is the permission most likely to be implemented, unless there is reason to believe otherwise. Reference is however made to any alternative permissions in the text. Once it is clear which permission is being implemented, any alternative proposals are superseded. Each new commitment was allocated to a use class or classes.
 3. All sites were visited by Council officers in order to obtain information on development progress (i.e. floorspace completed, under construction and not started). These visits were carried out as soon after 31 March 2025 as possible. Due to the submission of the Local Plan in early May, these visits were slightly later than usual and took place in May and June. Site visits were supplemented by Council Tax and Building Control information where required.
 4. Finally, the survey information was organised and analysed, and the document prepared for publication.
- 2.2 Commitments which have been completed and permissions which lapsed in the period 1 April 2024 to 31 March 2025, are listed in this report, but will be omitted next year. The floorspace figures applicable to lapsed permissions are not included in the summary tables of outstanding commitments but are accumulated separately in Tables 7 and 14.
- 2.3 Sites which have any of the following characteristics are included in both this document and the Residential Commitments document at March 2025:
- a. Sites with alternative residential and non-residential commitments;
 - b. Sites with a commitment for mixed-use including both residential and non-residential use; and
 - c. Sites where there is a loss of non-residential for residential use, or vice versa.
- 2.4 Floorspace figures are expressed in the tables in square metres, and refer to Gross Internal Area (GIA), to accord with what is shown on planning application forms.
- 2.5 On 1 September 2020, changes to the planning use classes set out in the Town and Country Planning (Use Classes) Order 1990 (as amended) came into effect. These changes were the most significant changes to planning use classes in many years, and have substantial implications for this commitments monitoring exercise. For this year, whilst many of the outstanding commitments still use the old use classes, the two sets of information are presented, reporting on both the old and new use classes.

For these purposes, it has been necessary to allocate older permissions to the new use classes and newer permissions to the old use classes, so that the full implications of what is permitted is shown. Individual schedules for this year are presented for both sets of use classes. This means that all permissions appear in the figures for both the old and new use classes, and these figures cannot therefore be summed.

2.6 An outline of the use classes applicable during the monitoring year is given below:

- B2: General industrial uses.
- B8: Buildings used independently of other uses for storage and/or wholesale distribution. Open storage is excluded for the purposes of this exercise.
- C1: Hotels and guest houses but not hostels.
- C2: Residential institutions. This category includes hospitals, nursing homes, residential schools or training centres and premises used for the provision of residential accommodation for those in need of a significant amount of care.
- E: Commercial, business and services. This is a wide ranging category including: retail; food and drink; financial, professional or commercial services; indoor sport and recreation (not involving motorised vehicles or firearms); medical or health services; creche, day nursery or day centre; offices; research and development; and light industrial use.
- F1: Learning and non-residential institutions, including education, art galleries, museums, libraries, public halls, places of worship and law courts.
- F2: Local community, including shops (where under 280 sq m and there is no other such facility within 1 km), local community halls, outdoor sport or recreation (not involving motorised vehicles or firearms), swimming pools and skating rinks.
- Sui generis: This comprises uses that do not fall within the specified use classes. This has been expanded from September 2020 to include drinking establishments, takeaways, live music venues, cinemas, concert halls, bingo halls and dance halls.

2.7 An outline of the previous use classes prior to September 2020 is given below:

- A1: Shops and premises for selling goods. Retail warehouses, post offices, travel agents and internet cafes are included in this category, but not amusement arcades, garages, restaurants or shops selling hot food for consumption off the premises.
- A2: Independent office premises in use for financial and professional services where the majority of services are provided to visiting members of the public. Banks, estate agents, employment agencies and solicitors are included in this category but not taxi businesses, betting shops or payday lenders.
- A3: Restaurants and cafes where the primary purpose is the sale and consumption of food and light refreshment on the premises.

- A4: Drinking establishments i.e. public houses, wine bars etc.
 - A5: Hot food takeaways where the primary purpose is the sale of hot food to take away.
 - B1: Independent office uses (other than for A2 above), research and development of products or processes and light industrial uses.
 - B2: General industrial uses.
 - B8: Buildings used independently of other uses for storage and/or wholesale distribution. Open storage is excluded for the purposes of this exercise.
 - C1: Hotels and guest houses but not hostels.
 - C2: Residential institutions. This category includes hospitals, nursing homes, residential schools or training centres and premises used for the provision of residential accommodation for those in need of a significant amount of care.
 - D1: Non-residential institutions. This category includes premises used for medical or health services, day nurseries, schools, public libraries and museums.
 - D2: Assembly and leisure, including cinemas, concert halls, bingo halls, dance halls, gymnasiums and swimming pools but excluding theatres and nightclubs.
 - Sui generis: This comprises uses that do not fall within the specified use classes.
- 2.8 Developments are only recorded in the schedules if the net change in floorspace in a use class is at least 100 sq m. They are classified into one or a combination of the site uses explained above, usually based on the information on planning application forms or any more recent submitted information.
- 2.9 Commitments are assigned to the various land use categories in the report on the basis of the type of use that forms the main or principal component, except where there is an obvious joint main use on the site. Commitments that are for a range of business (E), industrial (B2) and/or warehousing (B8) are usually attributed to the business and commercial use class (E), since that is considered to be the use with the potential to generate the greatest amount of employment per unit area. It is, however, recognised that the floorspace could be used for industrial (B2) or warehousing (B8) purposes. Ancillary floorspace is included within the main use, e.g. a development of 1,000 sq m of B8 (warehousing) floorspace plus 200 sq m of ancillary E class office floorspace is recorded as 1,200 sq m under the main site use which in this instance would be B8 (warehousing).
- 2.10 A change of use from one main site use to another is recorded as a gain for one use and a loss of another, e.g. E (commercial, business and services) –200 sq m; F2 (local community) +200 sq m.
- 2.11 The net change in floorspace disregards unauthorised uses and takes into account permitted uses only. Unauthorised uses are not counted in the figures.

3. UNDERSTANDING THE TABLES

- 3.1 This section describes and clarifies the information presented in the tables in section 4.
- 3.2 Section 4 contains 14 summary tables, which present information on developments that have not started, are under construction, are outstanding, are agreed in principle, have been completed, were newly permitted this year and have lapsed.
- 3.3 All tables show the amount of floorspace by square metres (gross internal area, usually based on the information given on planning application forms) in each use class (see paragraphs 2.6-2.7) which has the relevant status.
- 3.4 As well as an overall total for the Borough, totals within a number of different categories are shown:
- **By Ward** - Reading Borough Council is broken down into 16 wards (see figure 1). A total for each ward is given¹. Reading's ward boundaries changed at the 2022 local elections and the new wards are used for these purposes. Please note that, even where ward names have not changed, boundaries have generally been amended so the ward totals cannot be compared to totals up to and including 2022.
 - **By Development Plan Designation** - The totals for a number of different planning designations for the area, based on existing development plan documents (see figure 1):
 - Central Reading – the boundary of Central Reading is the boundary shown in the Local Plan (adopted 2019).
 - Smaller Centres – the smaller centres (other than Central Reading) are those listed as district, major local or local centres under policy RL1 of the Local Plan, using the boundaries shown on the adopted [Proposals Map](#).
 - Town Centres sub-total – this is the sub-total for Central Reading and the smaller centres.
 - South Reading – the Local Plan focuses a significant amount of development on South Reading, in particular the A33 corridor. The boundary used for monitoring this is the definition of South Reading in the Local Plan.
 - Core Employment Areas – policies EM2 and EM3 of the Local Plan refer to Core Employment Areas as being the areas where new industrial and warehousing uses will be focused, and where existing employment will be protected. The boundaries of the CEAs are shown on the adopted [Proposals Map](#) and it is these boundaries that are referred to here.

It is important to note that the figures within this set of designations do not sum, because there is some overlap – e.g. some sites will be within both South Reading and a Core Employment Area, or within both South Reading and a defined centre, whilst many will be outside both.

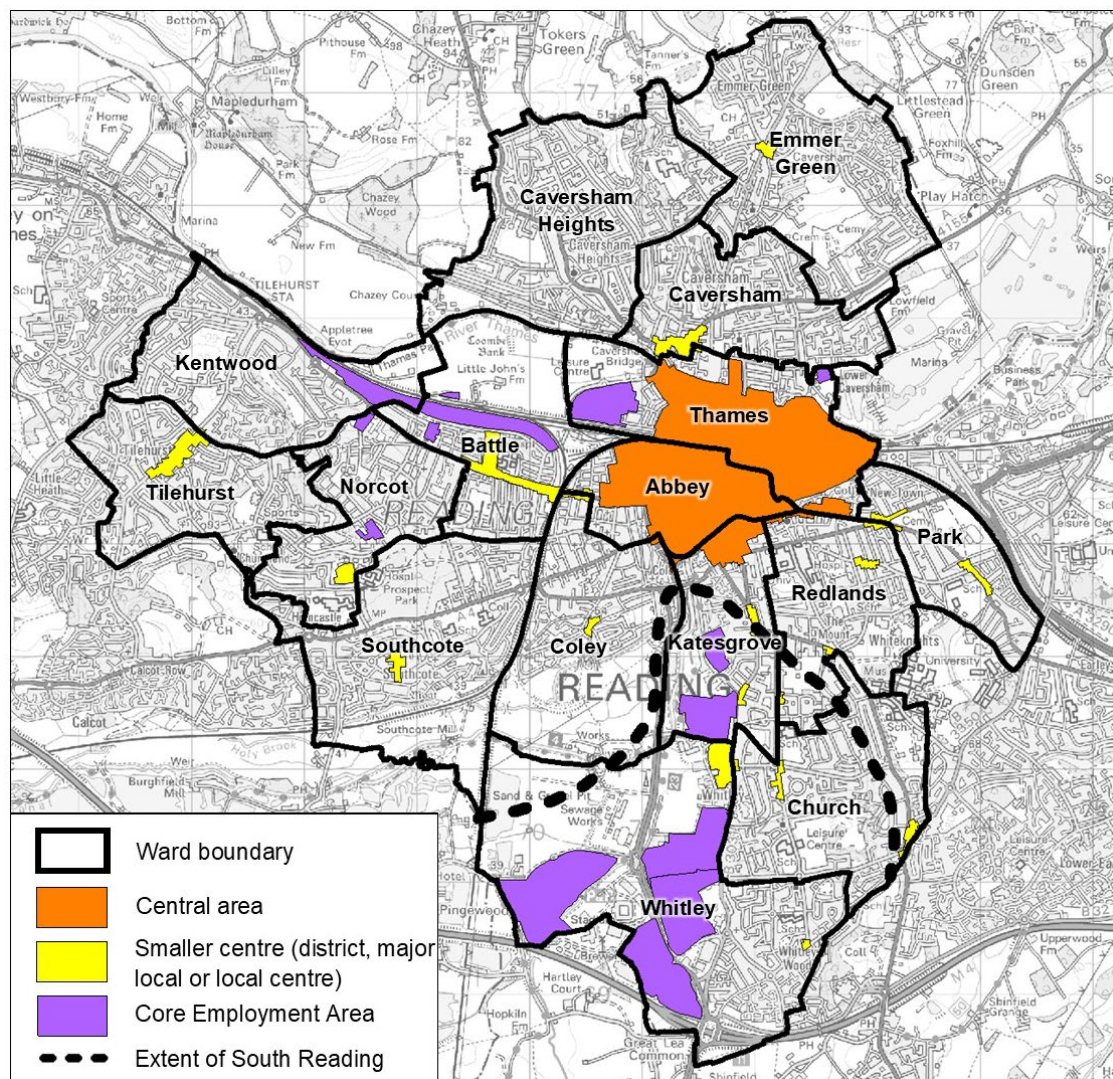

¹ No figure for parishes is given, as Reading Borough has no parishes.

- 3.5 The tables are divided by status, and these are described below.
- 3.6 **Table 1** (showing old use classes) and **table 8** (new use classes) show the amount of net floorspace (i.e. taking account of both gains and losses) with planning permission (including both full and outline) but not yet started at 31 March 2025.
- 3.7 **Table 2** and **table 9** show the amount of net floorspace with planning permission that was under construction at 31 March 2025. This starts from the digging of footings and laying of foundations, and ends when work has completed². For changes of use, this includes the period of making internal alterations.
- 3.8 **Table 3** and **table 10** show the total amount of net floorspace outstanding at 31 March 2025. This consists of net floorspace not started and net floorspace under construction, and therefore is a sum of tables 1 and 2 (for table 3) and 8 and 9 (for table 10).
- 3.9 **Table 4** and **table 11** show the amount of net floorspace without planning permission but accepted in principle. These are known as ‘soft commitments’. There are two types of ‘soft commitment’:
- Sites where there has been a resolution to grant permission, often at Planning Applications Committee, but where the decision had not been officially issued at 31 March 2025. Usually, this is where the permission is awaiting the signing of a Section 106 Agreement.
 - Sites which are allocated for non-residential development in an adopted development plan but where planning permission has not yet been granted.
- 3.10 In the case of development plan allocations, the relevant document is the Local Plan adopted in November 2019. Floorspaces for allocations are only included in these schedules where there is a basis for their estimation – either a loss of existing floorspace (usually estimated on the basis of mapping information) or where a floorspace figure is set out in the allocation. The allocation usually quotes a range of floorspaces, and where this is the case the higher figure is used.
- 3.11 The inclusion of such soft commitment sites in the document and their likely development capacity does not necessarily represent a commitment to approve the development. It is not therefore comparable with an outstanding planning permission, nor is it necessarily an indication of a site’s continued acceptability for development. All future planning applications on these sites will be considered on their individual merits by the Council.
- 3.12 **Table 5** and **table 12** show the amount of net floorspace completed between 1 April 2024 and 31 March 2025. Floorspace is completed for these purposes when work on it has ended, even if it is still unoccupied.
- 3.13 **Table 6** and **table 13** show the amount of net floorspace newly permitted between 1 April 2024 and 31 March 2025. Their purpose is to show where new sites are coming forward. As such, they do not include developments which are the same as, or similar to, previous or existing permissions on the same site.

² It should be noted that the definition of when construction has begun for these purposes may differ from the definition of whether a permission has been implemented for legal purposes.

- 3.14 **Table 7** and **table 14** show the amount of net floorspace for which planning permission had lapsed between 1 April 2024 and 31 March 2025. Planning permissions are generally subject to a condition requiring that work begins within a certain period, and an unimplemented permission lapses when that period runs out. Once lapsed, the developments no longer have planning permission. The standard period is generally three years, although other periods may be specified in individual cases.

Figure 1: Wards (from May 2022) and development plan designations in Reading

4. SUMMARY TABLES

Table 1: Planning permissions (hard commitments) not started (use classes prior to 1 September 2020)

| Ward, designation or site type | A1 | A2 | A3 | A4 | A5 | B1 | B2 | B8 | C1 | C2 | D1 | D2 | Sui generis |
|--|--------------|---------------|-------------|-------------|-----------|----------------|---------------|--------------|---------------|---------------|--------------|---------------|---------------|

* Permissions which have lapsed and are not counted in outstanding permissions. Sites where a similar alternative permission is still outstanding are not counted here.

5. COMPARISON WITH PREVIOUS YEARS

- 5.1 The following statistics give an indication of trends in the main classes of non-residential development over recent years.
- 5.2 These figures use the use classes existing prior to September 2020, because the changes in the new use classes order would make any historical comparison very difficult. This is one of the reasons that continuing to collect information under old use classes is useful.
- 5.3 For the period 1991-2002, sites that were vacant or partly vacant were considered to be 'Outstanding'. However, from 2002-03 these sites have been considered to be 'Completed'. Hence the 'Existing Stock', Outstanding Commitments' and 'Completions' figures for 2003 and onwards are not directly comparable with earlier years. An adjustment has been made to the figures for 2001-02 and 2002-03 for the 'Existing Stock' to take account of the vacant and partly vacant sites at 2002 as being counted as 'Completed'. Table 15 shows both the original and adjusted figures for 2002, with the original figures (comparable to the figures from previous years) in brackets.

EXISTING STOCK

- 5.4 Table 15 gives details of the existing stock of industrial and commercial floorspace. Figures have been calculated by adding annual completion figures to a 1984 floorspace stock figure taken from the Department of the Environment's "Commercial and Industrial Floorspace Statistics 1981-1984".

Table 15: Floorspace stock by use class (sq m)

| Year | Business, Industry, Professional and Financial Services (A2, B1 - 7) | Warehousing (B8) |
|------|---|---------------------|
| 1991 | 979,290 | 503,610 |
| 1992 | 994,230 | 503,190 |
| 1993 | 1,003,320 | 503,510 |
| 1994 | 1,001,190 | 501,830 |
